KAVALAEXPO 2014
OPPORTUNITIES FOR DEVELOPMENT
A LEAP INTO THE FUTURE

Dear Colleagues and Friends,

It is our great pleasure, once again this year, to inform you that the Chamber of Kavala is organizing the 22nd Annual Exhibition **KAVALAEXPO 2014**. The official opening of the fair will take place in the evening of Friday, 26/9 and the exhibition will be in operation from Saturday 27 September through Wednesday 1 October, in the «Apostolos Mardiris» Exhibition & Conference Centre in Nea Karvali, Kavala.

We invite you to visit our exhibition and we also kindly ask you to promote our exhibition to prospective visitors or participants to our business-to-business matchmaking events. On Saturday, 28 September, the Enterprise Europe Network service of our Chamber will be hosting Company Missions within the framework of the European Commissions' SME Support Programme.

As you can see from our fully updated exhibition portal - www.kavalaexpo.gr - the purpose of our exhibition is to present products, services, technology and ideas to visitors from Northern Greece and also organizations and companies that visit our exhibition from the Balkans, the Black Sea area and the Eastern Mediterranean. Traditionally, we have many visitors from Bulgaria, Romania, Cyprus, Serbia and Turkey. In the past we have also received American, Armenian, Albanian, Egyptian, Moldovan, Polish, Russian and Ukrainian visitors. Indicatively, we mention certain sectors that will be represented at our fair: energy and heating technologies, construction materials including marble, furniture, indoor-outdoor window and door frames, chemical products, household and general consumer goods, foodstuff, jewelry, etc. Other services promoted include consulting, tourism, real estate, computing technologies, printing, NGOs, public and municipal services, International Chambers, Municipalities and other organizations, etc.

The benefit to international exhibitors and visitors is that they have the opportunity to take part in the most significant economic event of the year for our area. Our Chamber promotes and publicizes the exhibition, we organize parallel events of a cultural and economic nature, we actively invite corporate sponsors – all in an attempt to upgrade our fair. Also, visitors to our city will benefit from special rates at area hotels. A brief visit to our web site www.kavalaexpo.gr will convince you as to the beauties of Kavala that one ought to visit.

Our Chamber staff is available for any and all further information (Contact - Souzy Mavrommati, Director [ext 4], Olga Kazianis, Head of International Relations [ext. 2] or info@kavalaexpo.gr).

I am looking forward to welcoming you,

Sincerely,
Angelos Tsatsoulis
President
