Dear Reader,

With the publication of this issue, we are concluding the celebration for the 35th Anniversary since the establishment of the Arab-Hellenic Chamber of Commerce & Development. During all these years, our Chamber stood loyal to its objectives and goals in promoting close cooperation and ties among the Greek and Arab Business Communities on all levels. By all accounts, the Chamber has in many ways contributed positively to the increase of trade exchange and balance and has assisted many Greek businesses in their endeavors to establish their presence and in the creation of partnership with their Arab counterparts.

The last four years have witnessed steady increase in the trade balance between Greece and the Arab World and many Greek Businesses have been competitive and successful in penetrating new Arab markets. The quality of Greek products and the approach by the Greek Enterprises have in many ways attributed to this success. We are certain that this trend will be further enhanced.

We are enormously indebted to the Greek Ministry of Economy Infrastructure, Maritime Affairs & Tourism and to the Greek Ministry of Foreign Affairs for their cooperation and continuous support of our Chamber. In 2015, we have presented our members with a set of events that we believe have in many ways contributed to further their business expansion in the Arab World and in Greece. We look forward in 2016, for more positive input from our Chamber with the support of its member companies and together we shall make it.

We extend our thanks to our Board Member Mr. Ali Al Ghorayed, Representative of the Council of Saudi Chambers in our Board of Directors and CEO of **Al Ghorayed Agricultural Foundation** in Tabuk, Saudi Arabia, for his support of the Chamber and for sponsoring this issue.

Our sincere wishes to all our members and to the Business Community in Greece for a *Merry Christmas and Happy Holidays*. On this occasion, we should all reflect and do our best to join forces in order to revise any setback and plant the seed of success in every level in our lives for the benefit of our communities.

Thank you all.

Harris Geronikolas
President

Rashad Mabger

JAMAL

THE SILK ROAD

The paintings and art works of the renowned Arab artist, **Jamal**, will be exhibited at **Benaki Museum** from **January 14 to February 14 2016**.

Jamal is known for his imagination and refined lines and his work has been exhibited in Germany and other parts of the world.

The Arab-Hellenic Chamber of Commerce and Development is one of the proud sponsors of this exhibition.

For more news, stay tuned.

The visit of H.E President Abd el Fattah Al Sisi to the Hellenic Republic 8-9 December 2015 marks a corner stone in the progress of the excellent relations between Egypt and Greece, and compliments their endeavor to promote the historic ties and reflect them into enhanced cooperation in many fields.

The Government, in its quest to unleash the full potential of the Economy, has set an ambitious roadmap that capitalizes on intrinsic growth drivers and increased public support for economic reform.

At the macro-level, the government aims at creating a solid macroeconomic setting that is conducive for domestic and foreign investments. It has so far shown commitment to achieve such target through well established measures, and a strong range of legislations and regulations that aim at clearing market distortions, enhance competition, limiting bureaucracy, protecting investors, and ensuring social equity.

The measures implemented so far have been favorably perceived by the investment community and international financial institutions.

Ahmed F. El Bidewy
Ambassador of Egypt

Egypt for a *Brighter Future*

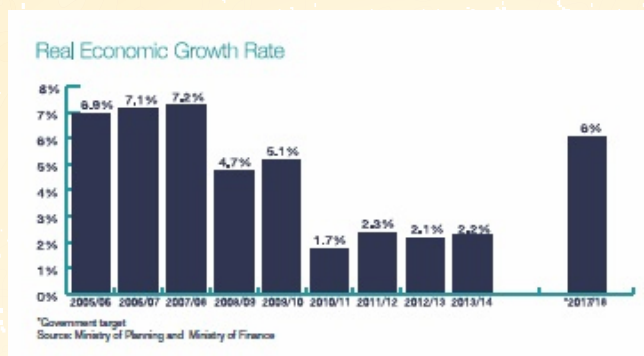

Economic indicators According to the World Bank

- The growth rate during the current year will be 4.3% , the growth rate in the first half of 2015 stood at 5.1% compared to 1.2% in the same period last year.
- The IMF predicting GDP growth of 7% by 2017/2018.
- The unemployment rate declined to 13% in the first half of this year.
- The size of net foreign direct investment increased to \$5.7 billion in the first nine months of the fiscal year 2014/2015 compared to \$3.1 billion for the same period last year.
- Ambitious FDI following years of political turmoil that saw net FDI inflows tumble from a high of about \$ 13 bn in 2008 to just less than \$ 2.5 bn in 2010.
- A considerable increase in investments has captured the restored investors trust the most , which registered \$ 5.7 bn, an increase from \$ 4.1 bn during the FY 2013/2014.

TIME TO INVEST IN EGYPT

- Egypt has begun in implementation of important reforms in fiscal policy and has taken positive steps in the rationalization of support in parallel with the national scheme of national development and the launch of a large number of mega-projects that are considered locomotive to revive the Egyptian economy.
- The international credit rating agencies raised Egypt's credit rating, which encouraged foreign investors to invest in the Egyptian market.
- International reserves recorded \$ 16.4 bn by end of October 2015.

Economic Roadmap.

The Egyptian government set several goals.

- To raise growth rate to 6% yearly.
- To decrease the fiscal deficit to 8% of the country's GDP.
- To reduce debt to 80-85% of the GDP.
- To reduce inflation rate to 7% yearly.

Investment In Egypt

Why Egypt ?

1. Strategic Location.
2. A well diversified Economy makes it resilient to external and internal shocks.
3. Huge Domestic and International Market.
4. Qualified workforce.
5. Availability of raw materials.
6. Well established infrastructure.
7. Reformist Investment Climate.

Legislative Framework

- Egypt offers guarantees and incentives to provide the best investment climate and maintain the rights of investors as well. In this regard, laws have been enacted to give companies and individuals the right to import all the required materials, equipment and spare parts and allow them to export their products without any obstacles.
- Egypt adopted a package of policies and executive programs that are aimed at improving the climate of investment, easing procedures and achieving justice of distribution of private investment in the governorates which need more investments with the purpose of creating job opportunities and reaping the fruits of Egypt's economic development.
- Tax exemption for five years on the revenues of trade and industrial activities as well as the profits of the companies and institutions.
- Tax exemption extends to 10 years as regards the companies established in remote areas and new urban communities.

Investments opportunities

- | | | |
|-------------------|-----------------------------------|--------------------------------|

TROOFOOD

T//F//L// believes that the role of food in our lives today is hugely important – it is political, it is social, it is ecological, it is communal and it should always taste damn fine!

T//F//L// advocates for people to make more conscious decisions as consumers. We believe in the right of all people to eat real food, food that is free of pesticides and genetic modification. Real food which retains its nutritional value and original healing properties. We believe in the ancient Greek motto of "Let food be thy medicine and medicine be thy food" (Hippocrates, 460 B.C.).

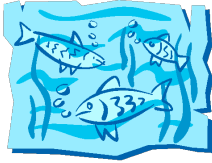

T//F//L// moves away from the corporate power structure that the food industry has become and encourages cruelty free diets. Cruelty free means that we do not exploit animals for food or other uses, we support fair trade economies and boycott those economies that are making a profit out of peoples suffering.

T//F//L loves good food... Food that tastes good and feels good. But the 'Food industry' is backward... instead of nourishing us, it contributes or causes health issues, it has endangered our seeds to the brink of extinction and together with the pharmaceutical industry they have enslaved our economy and our health.

MARKELLOS MARINE FARM S.A.

Founded in 1985, Markellos Marine Farm (MMF) was the first aquaculture enterprise registered in Greece.

All of MMF's operations are located on the northern part of the Dodecanese island of Leros in the eastern Aegean Sea.

MARKELLOS MARINE FARM S.A.

The island of Leros was selected as the birthplace of Greek aquaculture because of its crystal clear waters, which maintain a relatively high average temperature all year round. This combination of the water's purity and warmth guarantees the highest possible quality and yield of fish production.

Juvenile fish are produced locally in the company's hatchery and then reach maturity at seven different growing sites, which all together produce 3000 metric tons of top quality fish per year.

MMF specializes in the production of Sea Bream and Sea Bass, together with the new species of Stone Bass (*argyrosomus regius*), Sheephead Bream (*puntazzo puntazzo*) and Red Bream (*pargus major*) and Dentex (*dentex-dentex*).

Mature fish are harvested daily and are immediately packaged in a modern packaging site according to rigorous EEC standards and HACCP regulations.

Markellos Marine Farm currently exports its fish to the Middle East, the United States and most countries of the European Union, where it has earned a reputation for high quality, dependability, and good value for money.

AGROFLORA S.A.

Processing and manufacturing of peat moss, fertilizers and agricultural supplies

AGROFLORA produces potting soil for any kind of use even for special uses according to the needs of different cultivations since 2005. The company came out of the exigency of the mother company Agrohoun S.A to provide the best service for its customers as far as hobby substrates are concerned.

The group of companies that includes AGROFLORA SA has 30 years of experience in manufacturing and marketing potting soils and fertilizers.

Raw materials including German, Lithuanian black and white peat, Cocopeat and the rest raw materials such as CaCO₃/Perlite, Zeolite and fertilizers are very carefully selected. The volume controlled according to DIN EN 12580 the pH levels as well as the conductivity are checked daily, ensuring the high quality of our products. Additionally, the selection of the packaging materials complies with international standards. Double film ensures durability and the use of UV film protects it from the sunlight's effect.

The production is fully automated, without human intervention and it guarantees the quality of our products. The production capacity of the plant is approximately 20-24 bags/per minute. AGROFLORA SA, exports in many countries all over the world, Far East, Middle East and Europe.

CLEANWAY

CLEANWAY Ltd. is a Greek company which produces detergent and cosmetics, in consuming and industrial packaging.

CLEANWAY was established in 1994, starting with the production of detergents, with target to offer the market a wide range of detergent products of high quality and of lower price than those of multinational companies.

The company aims to meet the high expectations of its customers, offering high quality products at the lowest possible price. The company guarantees quality products by applying to the production process international quality standards: ISO 9001, and for cosmetics ISO 22716.

The quality of CLEANWAY detergents has been verified by the big Greek retailers (Carrefour Marinopoulos, AB Vassilopoulos (Delhaize Group), Makro C & C, OK - Market, Market-in, Jumbo and others), which have entrusted the production of a wide range of PRIVATE LABEL products for a long time.

Apart from producing PRIVATE LABEL products, CLEANWAY produces its own brand detergents named "QUESTO" as well as an alternative economical series with the brand name "SOLERO". Moreover, the company has developed and manufactures ecological detergent and cosmetic products with brand name "Green Life", certified with the European "Eco Label". Five years ago, the company developed and produces a full range of cosmetic products with the brand name "Tango".

CLEANWAY facilities are situated within its own grounds of 8 acres, 55 km from the center of Athens, in the industrial area of Inofyta. The plant operates in a pleasant and rewarding environment for its employees, which at the same time it responds to the environmental and social requirements of the era.

Festive Events at Hotel Grande Bretagne & King George

For yet another year, the smell of Christmas begins from the corner of the most central square of Athens. From early on, Hotels Grande Bretagne & King George have been dressed in white, deciding to combine their warm environment with... the power of ice! Doors will open and the tall and impressive Christmas tree will be lit in the lobby, decorated with great taste. Fine garlands and ornaments in the color of ice will adorn the hotel's walls while new... aesthetic touches will positively surprise guests this season.

Gift ideas from the unique GB Corner Gifts & Flavors concept store never cease to increase! Christmas cakes in elegant boxes, refined tastes and aromas from the wide variety of sweets and delicacies are ready to be wrapped and delivered to your beloved ones!

In the most enchanting lounge of the city, the Winter Garden, from the 7th December a festive buffet with Christmas delicacies catered by our Patry Chef, will

be set up to accompany your coffee, hot chocolate or one of the 20 different varieties of tea.

During the festive days our Executive Chef, Sotiris Evangelou, will once more enchant you, by creating set menus for you to experience rare culinary tastes with friends and family. Festive music will add a final touch to the celebratory feeling of every event. For more information on the gala program of the GB Roof Garden and Tudor Hall restaurants, please visit the following link: **Hotel Grande Bretagne & King George Christmas Brochure 2015 - 2016**

Finally, take advantage of the festive accommodation packages offered by the two centrally located hotels and experience memorable moments. Visit our festive website and make the most of this year's offers: Hotel Grande Bretagne, King George.

The well-known GB Nutcracker will as always stand at the entrance, eager to welcome you!

The Kaleidoscope concept & The 4 Castles Marmomacc 2015, Verona-Italy

On the occasion of Marmomacc-Stone, Design, Technology International Trade being held on September 30th-October 3rd 2015, Verona-Italy, Stone Group International presented white marble Pirgon from its quarry Birros Group-Hellenic Marble Quarry located in Northern Greece.

Stone Group International booth was transformed into an active quarry "The 4 Castles" through special construction video walls designed by ARCHKT Ltd, allowing clients and visitors to live the process of raw material extraction.

Customers and visitors had the chance to admire the last new entries of Pelagonia Marble and Pirgon-Ebru Arabesque, comprising the awarded concept of "12 Mythic Marbles" (Marmomacc 2014 1st Prize in the World category).

The company presented "Kaleidoscope" -architects Spyros Kokkinos and Michalis Theofilou-at Arena Area within the frame of "Marmomacc and the City" parallel event. The exhibit is meant to provide inspiration for new use of marble by showing the contrast between modern objects and the heritage city.

The Kaleidoscope concept is based on two different marble wheels, diameter 2.20 m each, revolving in opposite directions, creating a visual Kaleidoscope pattern, symbolizing the beauty of life and its ever-changing nature.

The installation introduces Pirgon material range and the new Pirgon Ebru-Arabesque white marble to the market, mainly to key consumers from UAE, Italy, USA, UK, Australia and Mexico.

Stone Group International, in the frame of its strategic extroversion, will participate for 2016 at the international stone fairs of: Xiamen China, Izmir Turkey, Coverings Chicago and Marmomacc Italy.

ARCHED SHAPE STEEL BRIDGE (width 250m) NATIONAL ROAD "TRIPOLI – KALAMATA" (Greece)

Steel construction company "K.LIAROMATIS SA" in association with "TERNA SA" successfully completed the construction of the deck of Arched shape Steel Bridge at the "PARADEISIA-TSAKONA" site, of 250m opening, which ranks as one of the largest arched shape steel bridges in the world.

The project presented significant difficulties since due to its location various geological and geotechnical problems appeared. The project started in 2013 and completed in 2015.

The deck of the bridge has an overall span length of 250m and the steel structure consists of steel main secondary beams. The two main beams are arranged along the bridge, parallel to each other, at a distance of 22,5m and are suspended in every 12m, with the use of special suspenders, which are connected with arcs and the main beams with hinges. The beams were constructed from steel plates with continuous welds and dimension of 800 x 2000 mm. The individual items of beams are connected with high strength bolts.

Secondary beams are placed between the main beams the connection of which is bolted, with pretensioned high strength bolts. In overall 83 secondary beams are arranged along the bridge at a distance of 4m between them.

The composite action between the secondary steel beams and the deck slab is achieved with the use of Nelson type shear studs on the top flange of the steel beams.

Steel construction company "K.LIAROMATIS SA" is able to handle any significant steel construction. With significant expertise, experience and providing excellent quality in steel construction field always aims at absolute customer satisfaction.
