Dear Reader,

It is with pleasure that we present you the third issue of our Members' Activities Newsletter, the first of 2015. Once again, we wish a lot of success for your businesses and hope for the creation of new partnerships between our members and their Arab counterparts.

In the coming few days, we shall announce to our members the details for participating in the Engineering, Construction and Building Materials Directory for Greek and Arab companies. We believe that this publication will be another useful business tool with up-to-date information for those interested in the related sectors.

As mentioned before, this year marks the 35th Anniversary since the establishment of our Chamber. We look forward to our set of activities, the most important being the 4th **Arab-Hellenic Economic Forum**, scheduled for 3-4 June. News updates will follow.

In the Special Insertion of this issue, we are introducing **BANDAI NAMCO Entertainment**, the world-renowned company of video games, and member of our Chamber. BANDAI NAMCO Entertainment is expanding in the Arab world and has many new games in store for its devoted clientele.

Here, we would like to thank **SKAG**, one of our oldest members and a well-known company for its innovative stationary products and printing techniques, for sponsoring this issue.

On a last note, we welcome our new members, the profiles of which are introduced in the first section of the Newsletter. The growing number of membership registrations is a direct result of the Chamber's boosted performance and positive image and an indication of increase in trade and business relations between Greece and the Arab world.

For now, we are calling you to enjoy our new edition and send us your news and profiles. If you are interested in a Special Insertion, sponsoring our next issue or placing any promotional item, we will be more than happy to hear from you.

Harris Geronikolas
President

Rashad Mabger
Secretary General

AGORA ART GALLERY - AMFOREAS WORKSHOP

On the new highway, Mycenae-Nafplion, just 3.5 km from the famous archaeological site of Mycenae, Greece, we have built the multi-functional venue Agora where visitors can be guided through ancient Greek art.

Agora successfully combines the art gallery with the museum. From the Cycladic and Minoan civilization until the Classical Greek period, it is rich in handcrafted statues, figurines and vases, exact replicas of the ancient Greek ones. The collection is completed with gold and silver jewelry with ancient Greek as well as more modern patterns that impress with their craftsmanship.

In the **Amforeas Workshop**, a modern and fully equipped pottery, art is created with exact replicas of famous masterpieces of antiquity, such as the Venus de Milo, the Jockey of Artemision and the Discus Thrower of Myron as well as unique vases, figurines and other archaic items of the ancient Greek heritage.

The long family experience, which already spans to two generations, has led to the Art of Decoration. We professionally decorate buildings of all types, such as banks, museums, educational organizations as well as mansions, villas and houses, giving the ideal propositions and suggestions for lovers of the ancient civilization of Greece and the passionate collectors who want the best of the best.

Visit the **Agora Art Gallery** and "travel" in the days of Ancient Greece, the cradle of civilization, which gifted hundreds of years ago, the light around the world.

Managing Director

AKTINA TRAVEL SERVICES S.A.

About us

Aktina Travel Services, established in 1975, has accomplished an excellent travel services course from the very first years of its presence in the travel industry, thanks to its customer-centric philosophy and its unrivalled quality of services which supersede even the most demanding expectations. Whilst Aktina Travel Services holds notable distinctions from airline companies and travel organizations from all around the world as a market leader in Greece, it maintains a low profile, inspiring a feeling of confidence and security to its customers.

By capitalizing on its buying power and on the expertise knowledge of its human resources Aktina Travel Services operates successfully and offers a wide spectrum of travel services.

Mission

The company's scope is to maintain its leading position in the travel industry by offering its customers comprehensive travel solutions and dedication to their individual travel needs. For Aktina, each travel service should provide customers with positive insights and memorable experiences.

Our Vision

Our vision is to be our clients' «first choice» for all their travel needs-no matter how demanding or particular-and to inspire them confidence and security.

Our Values

High quality-low profile As a leading company in its field, Aktina Travel Services pays exceptional attention to the principles by which it abides: professional conduct, transparency and integrity, high level of specialization and continual training of its personnel, team spirit and credibility. These are the corner stones of the company which justify Aktina Travel Service's position as the No1 travel organization in Greece.

Operation Fields and Services

- Business Travel
- Seamen Travel
- Agent Solutions
(Air tickets Consolidation, Hotel Consolidation, Web Services)
- Meetings and Incentives
- Conference Organizing
- DMC Services

COCO-MAT
sleep on nature

COCO-MAT

COCO-MAT was founded in 1989 in Athens, Greece as a small family business, based on the vision of its founder Paul Efmorfidis to provide the world with the best beds possible, made only with 100% natural materials. Since then, COCO-MAT developed into a global brand with presence in 13 major cities of the world: New York, Paris, Amsterdam, Dusseldorf, Berlin, Milan, Madrid, Athens, Limassol, Seoul, Shanghai, Beijing, Singapore.

Using Nature's wisdom as a guide and source of inspiration, COCO-MAT created innovative sleep products, based on the principle of sustainable development. All mattresses are made solely from natural materials, such as coconut fiber, natural rubber, wool, cotton, seaweed, cactus, horsehair, wood and goose down. Each material offers its unique properties which in combination with the others, create the ideal sleeping condition.

Every COCO-MAT product is handmade passionately by the experienced workers, who carry on the COCO-MAT tradition at the company-owned factory in Northern Greece. From there, they are distributed across the world to one of its many stores in Europe, USA and Asia, circa 70 worldwide and growing. Central to Coco-Mat's philosophy and ethos is a high quality and unique service which is characterized by the experienced store staff's warm and gracious hospitality and commitment to educate customers on the best possible sleeping solutions for their individual needs.

Perhaps the best advocate of COCO-MAT's success, are A-list hotels such as the Jumeirah in London, or Aman Canal Grande in Venice, Chambers Hotel in new York, Hotel de l'Europe in Amsterdam, that feature COCO-MAT's sustainably made beds in their rooms.

Enjoy your sleep at COCO-MAT!

Globo is recognized by major global IT analysts Gartner & Ovum

Globo has been included in major reports of the two leading IT industry analysts, Gartner and Ovum. Globo is the only new vendor to be added to Gartner's new Magic Quadrant for Enterprise Mobility Management (EMM) report for 2014 and is positioned the furthest on the "completeness of vision" axis within the "Niche Players" Quadrant. Globo provides EMM and mobile application development platform ("MADP") products to organisations of all sizes.

Read more: www.globopl.com/en-GB/gartner-magic-quadrant-for-enterprise-mobility-management-2014
Globo was also identified as a major "Market Challenger" in Ovum's 2014-15, Decision Matrix for EMM Solutions. Read more: www.globopl.com/en-GB/ovum-decision-matrix-enterprise-mobility-management-solution-form
You can visit our website www.globopl.com to download the analysts' reports and get more information on the Globo products.

Globo becomes certified with FIPS, ensuring its position as one of the most secure mobility solution for Corporations.

Globo's cryptographic modules have been validated with FIPS 140-2 Security Standard, which has been added to the entire Globo solution suite, consisting of its Mobile Device Management and Mobile Application Development offerings. This means that all the mobile applications developed by Globo offer the highest possible management and security elements needed by large Enterprises, Organizations and Governmental bodies. Using the Globo solutions IT department can provide functionality to their personnel without the fear of security breaches.

Globo continues its global expansion with new offices in Silicon Valley.

Globo has established new US offices as it adds another one in Silicon Valley to spearhead business growth. The new location adds to Globo's existing presence in New York, R&D center in Canfield, Ohio, and the San Francisco office of Sourcebits. Sourcebits is the design and mobile application development company Globo acquired in June of 2014. Globo also has international presence in Athens, Bangalore, Dubai, Limassol, London and Singapore.

Inspires, Creates, Excels!!!

2015 started dynamically for SKAG as we took part in the "Parousies" exhibition for the first time. SKAG had something exciting and new to show the tourism and hospitality industry. Further to our investments in new printing and specialized finishing machines, we are now able to offer high value, customized products in small runs, completely personalized and exactly as many as any business needs, at a given moment in time. We are in the enviable position of being able to do short run finishing with Spot UV, glitter and gold and silver embossing!

Our aim is to offer win-win solutions – the business has a unique product to offer that has added value and their customer will have a memento of their holiday in Greece which differs from the vast majority available in the market. This obviously has applications for any business that uses high quality, high value printed material, but only needs small quantities.

The response was exceptional and we will definitely be there again next year!

Study at IST in Athens, Greece, be a citizen of the world!

The birthplace of democracy, western philosophy and the Olympic Games are waiting for you to explore. The ideal way to get to know Greece and discover the true spirit of the Greek people is by combining ample leisure time with a well-planned studyprogramme!

Transnational Education

International students have the opportunity to enroll in undergraduate or postgraduate programmes leading to an award globally recognised.

Among the various programmes of study offered at IST in collaboration with prestigious international universities, those with a global perspective, most suitable for international students, are the following:

Bachelor University of Lyon

- Bachelor in International Business

Masters London South Bank University

- MBA (Master in Business Administration)
- MSc International Tourism and Hospitality Management

IST at a Glance

IST (Independent Studies of Science and Technology) was founded in 1989 in collaboration with a group of university professors. Today IST is an independent multilevel and multifunctional academic institution recognised by the Greek Ministry of Education. IST offers undergraduate and postgraduate programmes of study, supported distance learning programmes, vocational training programmes, seminars and lifelong learning programmes in the fields of **Business & Economics, Computer Science, Humanities and Health Sciences.**

As a business-facing institution, IST is focused on linking education with the labour market, with a commitment to adding value to employers and enterprise. At the same time, it aims to ensure that its students will acquire the necessary knowledge and skills essential to enhance their career prospects, thus, preparing them to successfully contribute to an ever changing society and global labour market.

mythos® news!

ARGETA LINE

The active formula MYTHOS "ARGETA SESSION" enriched with Hyaluronic acid, valuable Argan & Olive oils and fatty acids Omega 3 & Omega 6 , progressively reduces fine lines and facial wrinkles and restores elasticity and firmness.

It helps cell regeneration, giving tone and brightness to the skin. Thanks to the combination of argan and olive oils, it offers strong anti oxidant protection from exposure to environmental stress and effectively protects the outer layer of the skin. It deeply moisturizes the skin while at the same time protects it from moisture loss.

THE RANGE INCLUDES:

Anti wrinkle day cream, Anti wrinkle night cream, Anti Wrinkle Eye Cream, Moisturizing Day Cream for normal / dry and Moisturizing Day Cream for mixed / greasy
