Dear Reader,

Welcome to our new "Members' Activities Newsletter", dedicated to the Arab-Hellenic Chamber's new and old members. It is with pride that we introduce this new service of our Chamber, in an effort to align ourselves with the changing times and to provide more personalized services to our members. This is a chance for our member companies to directly promote their businesses all over the Arab world because this Newsletter is directed to all Arab Federations and Chambers of Commerce. It is, therefore, a unique opportunity for free-of-charge exposure to the Arab (and Greek) markets with just one click: future deals at your fingertips!

In this first issue, we are very pleased to include a special insertion of **MOTOR OIL Hellas** for their continuous support of the Chamber's activities and events, the most recent of which is sponsoring the B2B meetings of the high-profile Yemeni Businessmen with their Greek counterparts. This is the least we could do to express our appreciation to **MOTOR OIL Hellas**.

In this Newsletter, we are also pleased to have **Weiss Hellas Co**, a leading company in quality ceiling systems and lighting fixtures, sponsoring our first issue. The floor is now open for any other member of our Chamber who wants to further promote their business, to provide sponsorship for our monthly Members' Activities Newsletter (published in English) as well as the Commercial Bulletin (published in Greek), for any month(s) of the year he wants. Those interested can contact us directly for more information.

In the pages that follow, you are welcome to browse through the profiles of our new members, discover the activities of our old ones and feel closer to the Arab-Hellenic Chamber's family.

We hope you will enjoy your reading.

Harris Geronikolas
President

Rashad Mabger

MOTOR OIL

is the largest private industrial complex in Greece. It produces the whole range of oil products and is the sole producer of base oils (lubricants) in the Country. Since May 2010, following the installation of a 60,000 bbl/day processing capacity Crude Distillation Unit (New CDU), the annual production capacity of the Refinery has been increased to 9.4 million Metric Tons (MT). Its storage capacity is 2.5 million cubic meters and it also has modern loading facilities and port installations.

MOTOR OIL is among the top refineries in Europe in terms of complexity. Its high level of complexity allows the production of high value added oil products from heavy 100% sour crude oil. The Company has consistently been successful in adjusting the product mix to the needs of the market thus achieving the best selling prices for its products outperforming the complex Mediterranean refineries in terms of refining margin.

GROUP STRUCTURE

MOTOR OIL is the unique shareholder of "CORAL S.A." (ex SHELL HELLAS S.A.) and "AVIN OIL". The former has a network of 700 SHELL branded gas stations, being the leader in automotive gasoline, while the latter has a network of 530 gas stations, being fourth in the relative market share rankings. Through its two coherent networks, MOTOR OIL enjoys a strong presence in the retail sector of fuels and lubricants in Greece with a market share of approximately 30%. MOTOR OIL is also the unique shareholder of "CORAL GAS AEBEY" (ex SHELL GAS AEBEY) which engages in the liquefied gas sector. Furthermore, MOTOR OIL has a cumulative direct and indirect (through AVIN OIL) 92.06% stake in "OFC AVIATION FUEL SERVICES S.A." which operates the aircraft fuel supply system and the storage facilities at the International Athens Airport. Moreover, MOTOR OIL has secured a presence in the power production sector through its direct 35% stake in "KORINTHOS POWER S.A." the major asset of which is a 440 MW combined cycle power production plant fuelled with natural gas located within the facilities of the Agii Theodoroi Refinery. "KORINTHOS POWER S.A." commenced its commercial activities in March 2012. Ultimately, MOTOR OIL has a 16% stake in "ATHENS AIRPORT FUEL PIPELINE COMPANY S.A."

NEW MEMBERS A.H.C.C.D.

GOLD STAR AVIATION – GULF AIR

Gold Star Aviation was established in 1991 by Mrs Claire and Panagiotis Zerzivilis. The company act as General Sales Agent for foreign airlines in Greece with strong partnerships such as Gulf Air, which is represented since 1992.

Gulf Air flies directly from Athens to Bahrain with 4 weekly flights (every Monday, Wednesday, Thursday and Friday) and offers ultra-convenient connections to the entire Arabic world, GCC, Asia and NE Africa. The unique designed A320ER is accommodating onboard only 110 passengers -96 economy and 14 business class- (compared to the common configuration of 180 passengers), guarantees the most comfortable travel for our guests, business and leisure passengers, providing super service on board.

Please note that aside from our extraordinary services, business class travelers will have the opportunity to enjoy Gulf Air's Falcon Gold "flat bed" experience!

And our Falcon Gold Lounge at Bahrain International Airport.

ROTA S.A.

ROTA SA was established in 1984 and its objective has always been the organization of shows that would be up to the European standards, as to more than adequately meet both the needs of the exhibitors and those of every specific market field.

Right from the beginning, the company has been aiming at the organization of conferences and the publication of special titles/editions. From its establishment up to now the company has become highly experienced in its field as it has organized more than 500 leading shows and events that make it the biggest shows' organizer of the private sector in Greece. ROTA SA organizes twenty eight (28) shows, on an annual basis. Among them, twenty three (23) are of a strict business-like character -as they serve specific fields of trade and industry- while five (5) address the wider public and the end consumers.

ROTA SA has been activating in the publishing field since 1989, when the first issue of the "Rota Spot" magazine was published. The publishing activity of ROTA SA was enriched in 1992 through the publication of the company's second magazine, "Rota Oikia".

In September 2003 ROTA SA expanded its activities considerably through the opening and operation of the EXPO ATHENS exhibition center, the first modern exhibition center of Athens. Since January 2009 ROTA SA is part of the holding company which has management of the new exhibition center of METROPOLITAN EXPO at the Athens International Airport of Eleftherios Venizelos.

The continual expansion of the company's activities and the fulfillment of the services provided in combination with the already rich experience of the company, have made ROTA SA the leading company in the shows' organization.

KOUNAKIS JEWELS & WATCHES

The beginning...

The magic of the art and the scents of precious metals emerging from fire and the sharpening wheel, lured Fotis Manousakis like sirens and jailed him for the rest of his life in the beauty of creation. His designs are inspired by historical and local symbols expressing boundless love for the island. A love and passion that was effortlessly transferred to next generations...

Today...

Today, the grandfather's philosophy, the medieval elements and the rich history of Rhodes, regenerated through the creations of Theodora Kounaki and the creative team...

INTELLIGENT MEDIA LTD

Intelligent Media is a company that develops various innovative applications that combine technology and marketing aspects. It was established in 2005 and is located in Athens, Greece. Through its course, our company has developed a strong presence in various sectors and serves a large number of clients that need innovative marketing applications that provide a personalized approach.

Intelligent Media is currently the largest digital signage network operator in Greece in terms of customer reach through the development of its exclusive digital signage network in the Greek health care sector. The particular business model, unique even at the European level, provides advertisers with strong targeting capabilities in order to reach a well-defined audience with measurable results and great efficiency.

Moreover, Intelligent Media in the context of constant innovation has developed CareHub (www.carehub.eu) which is a public-oriented automated health kiosk and has many applications in sectors such as pharmacies, public venues, corporate buildings, private insurance, etc. CareHub is also a unique marketing platform that allows for exact targeting through a combination of technologies that include web, mobile and customer-loyalty schemes, supporting a range of promotional activities.

Intelligent Media is a trusted technology partner for many companies. We strive to provide innovative technologies that will help marketers to achieve their goals in a continuously changing market.

Georgios Tsintzilonis

EVGENIDIS TROFOS CO

In November 2011 we launched TROFOS* e-marketplace with the aim to offer to customers worldwide a wide variety of Greek products, typical to the nutritional model of the famous Mediterranean diet. The Greek Mediterranean diet relies on raw materials which benefit from the rich Greek soil and the local biodiversity. As a result, the Greek diet has been specifically recognized as one of the healthiest diets, contributing to reduced heart diseases and longevity of its inhabitants.

We also wanted to share with our customers the unique culinary tradition of Greece with roots to antiquity, as well as the great taste of the Greek Mediterranean cuisine.

Driven by our passion to best communicate the Greek culinary characteristics, we pay great attention to our product mix, tell the story behind each product, and suggest consumption ways, while offering a great range of quality gourmet delicacies at fair prices.

Food sharing in Greece remains till today the traditional mean of creating bonding and expressing one's appreciation and love. Food offering is also considered the corner stone for family gatherings and special events. We at Trofos know how best to support above occasions and are ready to create special gifts for your associates, employees and beloved ones.

Sincerely yours,
Aemilios Evgenidis
Founder & Managing director

From the moment we are born, the concepts of "eating" and "living" are interconnected. The Breast-feeding process not only contributes to an infant's good health, but also strengthens the child's relationship with the mother-feeder. The latter is called Trofos (τροφός) in Greek, which is where our e-shop is named after.

MIDEAST TRAVEL WORLDWIDE

2014

A prosperous year for Mideast Travel Worldwide

The year of 2014 has been a very prosperous year for Mideast Travel Worldwide and continues as such. Aside from smaller and bigger goals that the company achieved these past few months, Mideast is particularly proud of **three main accomplishments:**

In February, the company presented its **new corporate image**. A branding modern, fresh, joyful and full of colours, but more importantly a branding that represents fully Mideast's **five pillars** of activity: Business & Leisure Travel, Destination Management, M.I.C.E., Luxury, Weddings & Events.

In June, the company announced its greatest business expansion in its 30 years of operation, the launch of **three branches in Glyfada, Mykonos and Istanbul**. The three destinations were strategically chosen, aiming to accommodate a major part of Mideast clientele and at the same time strengthen its leading position in the relevant areas.

Finally, in August the company was globally distinguished by the international institution of **World Travel Awards as "Leading Destination Management Company"** in Greece. Mideast's long expertise in providing travel services for incom-

ing tourism was the main reason for this unique award.

But Mideast doesn't rest on its laurels. On the contrary, the company strives daily to reach higher levels of services, being always one step ahead in order to not only meet but exceed its customers' and cooperators' expectations.

ETIHAD AIRWAYS

FLYING REIMAGINED

by Etihad Airways

Etihad continues to reimagine flying. Our pioneering spirit and traditions of hospitality, drawn from our home Abu Dhabi, have been harnessed to create contemporary living spaces in the air and deliver unparalleled comfort and service. The new aircrafts that will be delivered by the end of 2014 will feature:

1. Airbus, A380:

- The Residence by Etihad. The only three-room suite in the sky with a living room, separate bedroom and ensuite bathroom.
- First Class with the First Apartment. More than a seat, it is a living space for the discerning traveler, spacious enough to walk around in.

2. Boeing, B787:

- The First Suite. An exclusive space where timeless luxury has been reimaged. Enjoy uncompromised privacy behind closed doors.
- On both A380 & B787, the Business Studios are the embodiment of style, simplicity and functionality. The seat converts into a comfortable fully-flat bed of up to 79-inches.
- Finally, the Economy Smart Seat is the ultimate in clever design, with a unique "fixed wing" headrest that will make the journey even more comfortable. The ergonomically designed seat also has adjustable lumbar support.

Tyres Herco SA

GREEK TYRE RECYCLING COMPANY

RUBBER CRUMB FOR SPORT FIELDS

This is a story of total recall. After a severe fire accident our company TYRES HERCO was out of business. In the same time Greek economy was already in a deep recession.

Despite all negative predictions we never gave up. We achieved to get full financing for the reconstruction project from our insurance company. With hard work and dedication from the Management Team and all the personnel, we are from last September BACK IN BUSINESS.

- Ready to go again all around the world with our superior quality rubber crumb, powder and steel.
- Ready to move to end user technical products, introducing plates, tiles, matrices and other technical items for domestic and industrial use, both indoor and outdoor.

Success is not final, failure is not fatal: it is the courage to continue that counts.

Winston Churchill

BRAND NEW AND SHINING BUILDING AND MACHINERY

Rubber granules are sold to manufacturers around the world for use in road asphalt, athletic turf fields, and playground surfaces.

KONVA NORTH AEGEAN SEA CANNERIES S.A.

KONVA specializes in seafood, earning public trust and appreciation for decades with its TRATA and FLOKOS brands.

Today is the era when we all seek something new and original that will complement our daily meals.

One suggestion is our new products, frozen fish "TRATA ON ICE" and chilled "TRATA CHILLED".

All fish is freshly caught and comes from selected and reliable suppliers. This is later processed and packaged in the company's state-of-the-art industrial unit, in compliance with the highest health and safety standards set by the European Union.

PRODUCED IN GREECE

AiQ INTERNATIONAL TRADE CO. LTD.

AiQ International (www.aiq.gr) is a Greek trading company aiming to bring to the consumer of the world traditional Greek agricultural products with quality and elegance. Its 2013 New York International Olive Oil competition **Gold Prize** underlines that commitment.

AiQ International currently trades Extra Virgin Olive Oil and Olive's by products and has designed two Gift option wrappers addressing medium and high end clients. Its products can be found locally to a limited number of Deli shops, with the focus being foreign markets. Internationally AiQ has already established trade partnerships to a number of countries e.g. Germany, Luxembourg, Netherlands, USA and Russia.

The most recent accomplishment has been the initiation of trade with Shanghai/China and depending on the reaction of the market the strategy is to expand to other cities of China.

Also expectations are that by the end of year and after a nine month round of discussions, will manage to finalize the trade negotiations with distributors in Sultanate of OMAN and Dubai.

ATERMON

FULL ROUND VISION

Motion to the shopwindows

Atermon presents the **Full Round Vision** series, a brand new idea that is coming to bring the motion to any kind of shopwindows. It can be applied to any shop and for every product that is exposed on a shop window.

Advantages:

- Full 360 degrees exposure combined with traveling motion along the window.
- High promotion effectiveness The product is exposed the same way, either seen from outside or inside the shop.
- Easy handling Light weight system, can be easily moved inside the shop as it stands on 4 hidden wheels placed on platform's base.
- Can be placed parallel or vertical to the window according to shop's available space and window's dimensions.
- Rolling projection allows more products to be exposed especially for narrow windows using vertical positioning.
- A wide variety of combinations between materials colours and shapes can be used in order to meet the particular style of every shop.
- The number of projection posts and platform's dimensions can vary according to the kind of product respectively the available space inside the shop.

FRV-4A dimensions 1.8X0.9X0.23m (4 posts model)

FRV-3B dimensions 1.4X0.8X0.23m (3 posts model)

Max dimensions 3.6X1.8m

-Power consumption 185watts

-Operation voltage 220volts

-110v option also available on request

G. SAMARAS S.A.

MEDICAL GAS OUTLETS FROM ANTIMICROBIAL COPPER

Approximately four million people in the EU affected by an infection related to the provision of health care from which about 37,000 die. These infections are caused by bacteria that thrive in objects that we touch every day. Now there is a new weapon available in the fight against germs that cause these deadly infections: Antimicrobial Copper. The Antimicrobial Copper kills bacteria that cause those infections. Scientific publications have considered peer show that Antimicrobial Copper is effective against bacteria, viruses, fungi and molds, including MRSA (Methicillin-resistant Staphylococcus aureus), influenza virus A (H1N1), Clostridium difficile and VRE (Enterococcus resistant to vancomycin).

There are three important features that make the most effective Antimicrobial Copper surface material contact:

Uninterrupted eliminate microbes

- It has been scientifically proven that the effectiveness as an antimicrobial agent is much greater than the coatings containing silver
- It turns out that continuously eliminates germs that cause infections
- The only solid antimicrobial surface contact has been approved by the Environmental Protection Agency (Environmental Protection Commission) (EPA).

Never worn

- Continuous and sustained antimicrobial activity
- Remains effective even after repeated wet and dry abrasion and reinfection
- The natural oxidation does not act against the effectiveness.

Safe to use

- Not harmful to humans or the environment
- The antimicrobial properties are inherent not added chemicals
- Fully recyclable.

Having considered the above, the company G.SAMARAS SA manufactures and installs Medical Gas Outlets from antimicrobial copper contributing to the shielding of the healthcare facilities from germs and viruses.
