ARAB-HELLENIC CHAMBER OF COMMERCE & DEVELOPMENT

Join our Growing Business Community

-  Premium Rates in all our Events
-  Free Promotion and Exposure in our Publications
-  Invitations to Exclusive Business Events
-  Business Delegations to the Arab World

Why become a member of the Arab-Hellenic Chamber:

NETWORKING OPPORTUNITIES

-  Our members enjoy networking opportunities by participating in a wide range of events and activities:

- Forums, Conferences
- Workshops and Roundtables
- B2B Meetings (live and virtual)
- Business Delegations to the Arab world
- Exhibitions

INFORMATION

-  Our Chamber publishes:

- ~ Bimonthly Economic Bulletin exclusive for our members with upcoming events in the Arab world
- ~ Bimonthly Magazine with news of our members and other events and activities of our Chamber in Greece and the Arab world, distributed electronically and in hard copy format to a strong database of recipients in Greece and the Arab countries, to the Arab Federations and Chambers of Commerce and to professional business societies
- ~ Directories of its Members in Greece and the Arab world

-  Our Chamber also provides:

- ~ Information on Companies in the Arab World upon request of its members
- ~ Statistical Information on Trade Balance between Greece and the Arab World in various sectors
- ~ Checking of commercial documentation related to Greek exports to the Arab world and rendering services to its members by undertaking, on their behalf, the whole legalization procedure
- ~ Translation from/to Greek, Arabic and English and vice versa
- ~ Introducing of business proposals from the Arab or Greek companies looking for contacts in Greece or in the Arab countries

-  Exposure

Our members can have exposure by appearing in our magazine, our Directories, or when they sponsor our events.

-  For further information, please visit our website at www.arabhellenicchamber.gr or contact us at chamber@arabgreekchamber.gr

Cooperation among sea neighbours

Dear Reader,

The recent escalation of tariff disputes has given rise to a new, often unconventional approach to online trade negotiations—one that has taken many nations by surprise and forced a re-evaluation of global economic dynamics. While the direct impact on the Arab countries may be relatively limited, it nonetheless presents an opportunity as the Arab region dominates energy trade and controls 12% of global maritime traffic. By leveraging their resources and fostering regional trade partnerships, they can transform this disruption into a catalyst for growth across multiple sectors.

In this context, we are proud to present the **2nd Arab-Hellenic Maritime Conference**, held under the theme “Cooperation Among Sea Neighbours.” This event builds on the strong foundation of our inaugural conference, which was met with enthusiasm and featured robust participation from officials and industry professionals alike.

Greece, with its longstanding maritime tradition and leadership in global shipping, continues to set an example. The country has made significant advancements in port infrastructure and associated services—efforts that resonate with the maritime ambitions of the Arab world. Situated at a pivotal junction connecting Asia, Africa, and Europe, many Arab nations have begun capitalizing on their geographic advantage, investing in modern port facilities and expanding commercial fleets. As a result, several are emerging as competitive players on the international maritime stage.

We anticipate even greater success for this year’s Conference, both in scope and participation. The strong support from Greek governmental bodies—namely the Ministries of Foreign Affairs, Maritime and Insular Policy, and Development—as well as endorsements from the Union of Arab Chambers and the Federation of GCC Chambers, is both encouraging and deeply appreciated.

As we look ahead to welcoming you on June 25–26 at the Divani Caravel Hotel in Athens, we are also pleased to share that two business missions are planned for this year: one in September and another in early December. As always, our annual flagship event, the 14th Arab-Hellenic Economic Forum is set for 26-27 November. We hope you will consider joining us for these valuable opportunities.

We look forward to seeing you in June.

ARAB-HELLENIC CHAMBER OF COMMERCE & DEVELOPMENT

2^ο Αραβο-Ελληνικό Ναυτιλιακό Συνέδριο
المؤتمر البحري العربي - اليوناني الثاني
2nd Arab-Hellenic Maritime Conference

Athens, 25 - 26 June 2025

“Cooperation Among Sea Neighbours”

Under the Auspices:

General Outlook:

The Arab-Hellenic Chamber will convene the "2nd Arab-Hellenic Maritime Conference" on June 25-26, 2025, in Athens, Greece. This event builds on the success of the inaugural conference held in July 2023, which brought together distinguished executives and government officials from Greece and the Arab world.

The Arab countries are situated in a pivotal location in the international sea routes. This geographical position as well as their predominance as an exporter of energy and other natural resources, mobilized some Arab countries to advance their status in all maritime sectors, increasing the number of their fleet, modernizing their ports, and improving related services. These countries have thus made significant strides to reach the pinnacle of their standing in the maritime sector.

Greece has been a sea power since ancient times, boasting the longest coastline in the Mediterranean and the third longest in Europe. Shipping has always been intertwined with Hellenic civilization, serving as a source of wealth and pride for the Greek people. Today, Greece owns and controls over 5.200 ships, representing 21% of the global merchant fleet, contributing 8% to the country's GDP. Greece continues to maintain and enhance its status in the maritime sector and plans to revitalize its shipbuilding, repair, and maintenance industries, which will transform Greece into a shipbuilding hub while providing significant investment opportunities in its various ports.

The strength of the Arab-Hellenic Chamber derives from its privilege of being the sole representative of all Arab Federations and Chambers of Commerce in Greece. Because of this distinction, the Chamber has been able to effectively play a significant role in opening and strengthening channels of communication between Greek and Arab businessmen in order to explore potential for cooperation, investment, and trade in all business sectors.

Participation:

The Arab-Hellenic Chamber's events are known for the good level of organization, selective focal points and sectors and the high level of participation. The sessions and deliberations of this Conference will be addressed by top CEOs and decision-makers, stakeholders in maritime and its various subsectors, along with some distinguished official representatives from Greece and the Arab world.

Sectors and Key Focus Areas:

Recognizing the diverse scope of maritime business activities and their close links to other sectors, the conference will explore in its sessions and deliberations and business meetings relevant issues to the maritime industry, ports infrastructure and services, shipbuilding yards and maintenance, supply chain and logistics, energy and environmental impact, facilitation of industrial and free zones and latest developments and trends in the maritime industries.

Venue: 5* Hotel in Athens

Conference languages: Greek and Arabic (simultaneous interpretation)

Tentative Program

Wednesday, 25 June, 2025

09:00 Registration and Networking

09:45 Opening Ceremony

North African countries and Greece

10:30 First Session: Egypt, Libya, and Greece

Three Mediterranean Sea neighbours with a strategic advantage in international sea routes. The potential to further enhance cooperation among these countries and other Arab sea neighbours is enormous in the maritime industries, services, ports infrastructure, and waste management.

11:30 Second Session: Mauritania, Morocco, Algeria, Tunisia, and Greece

This session will explore opportunities for cooperation among the Maghreb countries and Greece in all maritime and port industries.

12:45 Networking Break

North Mashriq Arab Countries and Greece

13:15 Third Session: Iraq, Jordan, Lebanon, Syria and Greece

Recent developments in the region suggest new opportunities for cooperation between the North Mashriq countries and Greece with the possibility of transferring Greek technology and know-how in all maritime and port industries.

14:30 Finger food and Networking

15:30 Business meetings among Conference participants

17:00 End of first day's works

Thursday, 26 June, 2025

09:00 Registration and Networking

09:45 Introduction

The GCC Countries and Greece

The GCC Countries have long recognized the importance of economic diversity, each at its own pace. Recently, some of these countries have attained positive results in this direction. GCC countries equipped with their economic visions and Greece with its status as a world maritime pioneer can engage in further enhancing their cooperation in the maritime and related industries.

10:00 Fourth Session: Kuwait, Qatar, Saudi Arabia, and Greece

11:45 Networking Break

12:15 Fifth Session: Bahrain, Oman, United Arab Emirates, and Greece

13:30 Sixth Session: Sudan, Yemen, Somalia, and Greece

These Arab countries offer under-the-radar destinations for pioneering Greek companies interested in exploring business and investment opportunities in unchartered territories.

15:00 Finger food and Networking

16:00 Business meetings among Conference participants

18:00 End of Conference's works

Gala Dinner Program

19:30 Welcoming guests

20:00 Opening Ceremony

20:30 Traditional Greek & Arabic Folkloric Dances

21:00 Gala Dinner

Interview with Admiral Osama Rabie, Chairman of the Suez Canal Authority

Admiral Osama, welcome, and thank you for joining us today. It is a pleasure to have you here to discuss the Suez Canal's vital role in global trade and its significance to Egypt's economy. As is well known, the Suez Canal is one of the world's most crucial maritime routes, accommodating approximately 50 to 60 vessels daily, transporting goods valued between \$2 billion and \$9 billion.

We would like to begin our interview with the transformative expansion project initiated in 2014 under President Abdel Fattah El-Sisi's leadership, which aimed at widening and deepening the canal, enhancing the efficiency of vessel movement. How has this project improved maritime traffic flow, and what has its impact been on the Canal's revenue?

The New Suez Canal Project is one of the most prominent development projects of the Suez Canal. It has been at the top of the Egyptian state's projects priorities, with the aim of rebuilding the national economy and modernizing its infrastructure, towards achieving a comprehensive development plan under the leadership of the President of the Republic, Mr. Abdel Fattah El-Sisi.

The objective of this pivotal project was the digging of a new, parallel canal, 72 km long, by digging 35 km of it and widening and deepening the by-passes of the Great Bitter Lakes and Al-Ballah, with a length of 37 km, with the aim of increasing the percentage of dual sectors in the Canal in order to allow vessels to transit in both directions without stopping in the waiting areas within the Canal, reducing the transit time for passing ships to 11 hours, instead of 22 hours for the north-bound convoy. It also aims to increase the Canal's capacity to 97 standard vessels, instead of 77 standard vessels in 2014, in light of the future growth in global trade volume, and to affirm the Suez Canal's maritime classification as the

world's leading waterway.

The new Canal's role in doubling Canal revenues is highlighted by comparing the revenues generated prior to the execution of the New Canal project, which amounted to \$3.9 billion in 2014, with revenues reaching \$10.2 billion in 2023, the year prior to the unrest in the Red Sea and Bab al-Mandab Strait, which affected transit rates through the Suez Canal.

The Egyptian government has recently announced an ambitious project to further expand the Suez Canal through duplication efforts, which is expected to significantly boost vessel capacity and transit efficiency. Could you share more details about this major development and its expected benefits?

The Suez Canal Authority has successfully completed the Suez Canal Southern Sector Development Project, including expansion and duplication, and operating it to serve the global trade. This is part of the ongoing development plan for the waterway, aimed at keeping pace with the current developments in the maritime transport industry and the international shipping community, as well as increasing the level of efficiency and safety in the Suez Canal. The project includes a 10-km duplication in the area from km 122 to km 123, extending the length of the New Suez Canal to 82 km instead of 72 km. The project also includes the expansion and deepening of the southern sector of the Suez Canal, starting from km 132 to km 162, with a width of 40 meters to the east and from a depth of 66 to 72 feet.

The project achieves a number of navigational advantages, most notable of which is a 28% increase in the navigational safety factor, a reduction in the effects of water currents on transiting vessels, in addition to increasing the Canal's capacity by 6 to 8 vessels daily, receiving vessels that had not previously crossed the Canal.

Following the 2021 Ever Given incident, the Suez Canal Authority (SCA) assured the global maritime

community that such disruptions would not recur. What concrete measures has the Authority implemented to enhance navigational safety and prevent similar incidents in the future?

The Suez Canal Authority is striving to achieve the highest levels of maritime safety and security in the waterway, which boasts a low incidents rate compared to the number of transiting vessels. This is achieved by having its team of pilots and sailors undergo intensive training and simulation programs for any emergency that may occur to vessels during their transit through the Canal. In addition, SCA has developed a fleet of marine units, including tugs accompanying ships and pilot boats, with 23 different marine units joining the waterway during the past period. The waterway has also been equipped with the latest surveillance technology to monitor and track vessels during its transit voyage, in addition to providing all possible support.

At the same time, the Suez Canal has been developing maritime services and introducing previously unavailable services, such as marine salvage for transiting vessels. It has also signed a contract to build two 190-ton bollard pull salvage tugboats for maritime salvage and potential emergency situations such as groundings and other emergency breakdowns. The development of the

Southern sector of the Canal, as previously mentioned, has led to a 28% improvement in navigational safety and an increase in the number of vessels due to duplication, with an average of 6 to 8 vessels per day. SCA new maritime services also include crew change service, pollution control, bunkering, ship repair, and marine ambulance.

Looking ahead, the SCA has outlined a strategic vision to transform the Suez Canal into a "Green Canal" by 2030, aligning with Egypt's broader sustainability goals. Could you elaborate on what this initiative entails and the key steps being taken to achieve it?

The role of Suez Canal is highly significant. The Suez Canal places the environmental dimension at the forefront of its priorities, based on its vital role in ensuring the stability of global supply chains. It constantly strives to maximize its role by adopting an initiative to declare the Suez Canal a "Green Canal" by 2030. This is in line with the Egyptian state's efforts to achieve sustainable development through a clean, environmentally friendly economy, as well as the efforts of the International Maritime Organization (IMO) to reduce emissions from the shipping sector, encouraging the use of clean, carbon-neutral fuels instead of fossil fuels.

The Suez Canal has taken numerous measures in the framework of its strategy to declare the Suez Canal as a "Green Canal." SCA has already begun operating 16 pilot stations along the waterway on a hybrid power system (solar and wind energy) instead of conventional energy. It is also working to build environmentally friendly marine units. Through the Misr Tugboats Factory, as it has already built two AZM tugs, which are among the pioneers of environmentally friendly marine units and feature key machinery that enables them to reduce harmful carbon emissions. These tugs are among 10 marine tugs to be built for the Suez Canal Authority. Furthermore, SCA has worked to convert its fleet of vehicles to run on gas instead of fossil fuels. We have already converted the vehicles of marine pilots working at the Canal to run on natural gas.

Moreover, the Suez Canal saved approximately 55 million tons of carbon emissions and 16 million tons of fuel from 2015 to 2023 for the vessels transiting the Canal, the shortest alternative route to the Cape of Good Hope. The most significant event in recent days was the Suez Canal Authority's launch, in the presence of His Excellency Prime Minister Dr. Mostafa Madbouly, of a service to collect solid waste from vessels transiting through the Suez Canal. ANTIPOLLUTION EGYPT Company was established in partnership with the leading Greek V Group. The service will later be supplemented by the collection of liquid waste and the construction of a plant to convert waste into alternative fuel.

A significant milestone was reached on March 19, 2025, with the signing of an agreement between the SCA and Antipollution Egypt, a subsidiary of Greece's V Group. This partnership will introduce environmentally friendly logistical services, including solid and liquid waste management. How do you envision this agreement contributing to the Green Canal initiative?

5Certainly, the service of collecting waste from vessels at the northern and southern entrances of the Canal, and its safe disposal and future recycling through a plant that converts waste into alternative fuel, lays a solid foundation for transforming the Suez Canal into the world's first Green Canal, and affirms the Canal's leadership in maritime traffic, especially since this project is based on the principles of innovation, sustainability, and the application of international environmental standards issued by the International Maritime Organization (IMO). This project also delivers long-term economic, environmental, and social benefits by investing in a modern, environmentally friendly fleet using the most advanced technologies, adhering to the principles of a green economy in waste management, and achieving a waste- and carbon-free future for the Suez Canal and its surroundings.

Currently operating on the project is the ECO SUEZ 1, the company's first eco-friendly vessel, featuring an efficient hull, eco-friendly paints, and low-emission engines for maximum fuel efficiency, in addition to self-propelled marine barges and speedboats.

Are there plans to extend similar waste management and environmental sustainability projects to other major Egyptian ports, such as Alexandria, Port Said, Damietta, and Ain Sokhna?

The Suez Canal Authority continually opens channels of cooperation with companies from both the public and private sectors to achieve economic development, particularly in the logistics sector. Through its subsidiaries, SCA participates in developing ports and lakes throughout the country.

ANTIPOLLUTION EGYPT has partnered with marine works contractors and trained them on international waste collection methods, as part of an agreement in place with the Egyptian Marine Supply & Contracting Co., affiliated with the Ministry of Transport, the Red Sea Ports Authority, and the General Authority for Suez Canal Economic Zone, to regularize the status of service providers.

Finally, the Suez Canal remains a critical artery for global trade, ensuring the uninterrupted flow of vessels while also serving as a cornerstone of Egypt's economy. Given its strategic importance, how do you foresee the Canal's contribution to Egypt's GDP in the coming years?

Not only is the Suez Canal a cornerstone of the global trade community, but also one of the most important arteries of the Egyptian economy and a major source of foreign currency for the Egyptian public treasury. Over the decades, it has succeeded in providing significant hard currency revenues, reaching their highest levels in 2023, with revenues reaching 10.2 billion USD

For the time being, SCA hopes that the Red Sea region will regain stability and calm, and that tensions in this vital region of the world will be resolved as quickly as possible. This will enable the Suez Canal to operate at full capacity again and ensure sustainability for international supply chains. This emergency experience has proven beyond doubt that there is no alternative route that can serve global trade between East and West as efficiently as the Suez Canal.

At the moment, we are observing a gradual improvement in navigation movement, with many vessels returning to transiting the Suez Canal instead of the Cape of Good Hope. We look forward to continued improvement in the Canal's traffic, helping maritime routes achieve economic efficiency in terms of speed and economic savings, and enjoying a sustainable and safe sea route equipped with highly efficient maritime services.

Interview with Vyron Vasileiadis, Founder & Chairman of V Group of Companies

Vyron Vasileiadis: A Visionary Entrepreneur with Core Principles

In this issue, we are proud to have with us Vyron Vasileiadis, Chairman of V Group of Companies, and dear friend of our Chamber, to discuss his Group's achievements, major milestones and, of course, the significant deal his company, Antipollution Egypt, managed to close with the Suez Canal Authority, to provide Port Reception Facilities and environmental services to all vessels passing through the Suez Canal. It was a long-time coming deal, and Mr. Vasileiadis is sharing with us his business endeavors and his environmental and social concerns.

V Group of Companies is recognized for its cutting-edge solutions, reliability, and commitment to environmental sustainability. Your leadership has positioned V Group of Companies as a pioneer in innovation and environmental responsibility, both in Greece and internationally. Could you share with us the key milestones of your entrepreneurial journey and the philosophy that has guided you to this point?

Thank you — I truly appreciate that.

My journey with V Group of Companies began with a clear vision: to bring innovation and environmental integrity to industries that needed it most — both onshore and offshore. One of our early milestones was recognizing that the future of these sectors had to be greener, smarter and more integrated. We invested in state-of-the-art infrastructure, established presence in all key ports of Greece and expanded our footprint internationally — most notably in Egypt with the launch of Antipollution Egypt, aligned with the Suez Canal's green transition.

I've always believed that leadership is not about control — it's about building trust. And that's something my team and me personally, try to bring into every aspect of our work, whether it's with our partners, our teams, or the communities we serve.

Could you elaborate on the specific initiatives and technologies your company employs to drive sustainability across its operations?

Of course. Sustainability isn't a checkbox for us — it's embedded in everything we do. Our strategy is built around a clear net-zero emissions philosophy and we've taken concrete steps across all levels of our operations to support that, manifesting our zero waste approach to all operations.

In terms of compliance and standards, we strictly

align with MARPOL regulations — not just to meet requirements, but to exceed them. As the exclusive waste management provider for vessels in key regions like the Suez Canal, we see it as our duty to set a higher bar when it comes to environmental practices at sea.

Onshore, we're transitioning our industrial facilities to run on renewable energy sources. Our plants for example, are moving toward energy autonomy through solar integration. Our new headquarters, designed with sustainability at its core, reflect our long-term commitment to green architecture, energy efficiency and a reduced environmental footprint.

A major milestone has been the launch of our ECO SUEZ I — our flagship anti-pollution vessel, designed with the latest technology to support green maritime operations. It's a tangible symbol of how innovation and environmental protection can work hand in hand.

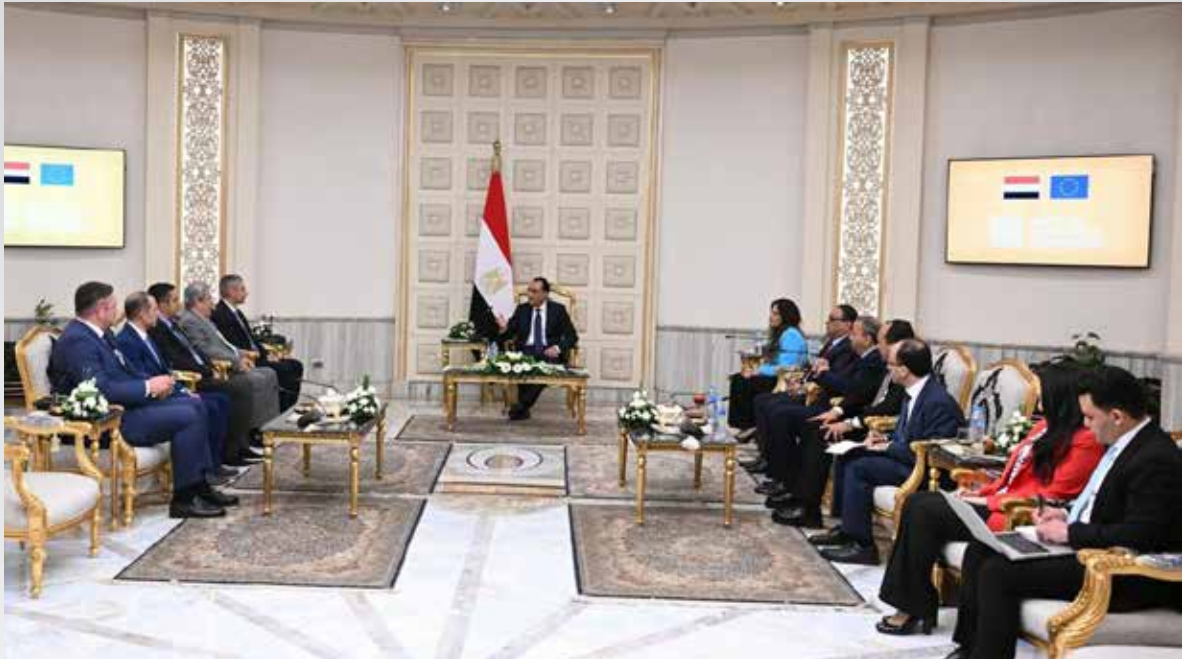

We're also actively investing in research and development, particularly in green technologies. Our aim is not just to adapt, but to lead — by developing new solutions that can help entire industries operate more responsibly.

At the end of the day, sustainability for us means future-proofing — our business, our environment and the communities we serve.

Strategic Expansion in Egypt & the Arab Region: One of the Group's notable achievements is the recent agreement between Antipollution Egypt and the Egyptian Suez Canal Authority to provide Port Reception Facilities to vessels in alignment with international environmental standards. This was a significant milestone, and we understand the journey to this agreement was extensive. Could you walk us through the process, the collaboration with Egyptian authorities, and how this partnership will contribute to Egypt's ambitious vision of transforming the Suez Canal into a Green Canal by 2030?

This agreement with the Suez Canal Authority marks a defining moment for our Group — and it didn't happen overnight. It was the result of years of consistent dialogue, mutual trust and a shared commitment to environmental progress. Here, kindly allow me to point out the leadership of His Excellency Admiral Osama Rabie.

From the very beginning, we approached the Egyptian authorities not just as service providers, but as partners. We listened carefully to their vision for the "Green Canal by 2030" and aligned our capabilities with their strategic goals. The Suez Canal is one of the most critical maritime

corridors in the world — so building an environmental infrastructure around it is not only necessary but urgent. Antipollution Egypt was established with this very purpose — to provide world-class Port Reception Facilities and environmental services that meet MARPOL standards and international best practices. We worked hand in hand with the SCA to design a model that is both effective and scalable — one that addresses the immediate needs of vessels while supporting long-term sustainability.

This partnership is not just about operations — it's about creating a blueprint for how public-private collaboration can accelerate environmental transformation. We are proud to be part of Egypt's bold journey and honored to contribute to a greener, more resilient Suez Canal.

Your successful entry into Egypt could serve as a gateway to broader opportunities in the Arab region. Are there specific countries in the Middle East where you see potential for expansion? Could you share any concrete plans or partnerships you are considering in this regard?

Our successful entry into Egypt has indeed opened the

door to a broader dialogue across the Arab region. We are engaging in discussions and exploring opportunities in several countries where environmental transformation is becoming a national priority.

At this stage, our focus remains on strengthening our existing operations and ensuring that our model delivers measurable impact. That said, we are in ongoing contact with stakeholders in the region and remain open to strategic partnerships that align with our philosophy and long-term vision. Suez Canal Economic Zone plays a significant role in this.

Any expansion will be carefully evaluated, always in close coordination with local authorities, and with the same commitment to environmental integrity, operational excellence, and community engagement that defines our approach wherever we operate.

V Group of Companies holds a leading position in the Southeastern Europe, known for its expertise in environmental services and sustainable solutions. What are the strategic advantages that set you apart from competitors?

Our strategic advantage lies in the fact that we're not

just a service provider — we're a long-term partner in environmental transformation.

What sets us apart is a combination of deep industry knowledge, operational consistency and a forward-thinking mindset. We've invested heavily in infrastructure, technology, and human capital to ensure we can deliver high-quality services across land, sea, and port operations — all under a unified, integrated framework. Our presence in all major Greek ports, our specialized facilities and our certified laboratories give us a level of agility and control that few can match. But beyond the infrastructure, it's our commitment to innovation, regulatory alignment, and net-zero principles that truly differentiate us.

We don't take shortcuts. We work closely with authorities, respect local communities, and take pride in building solutions that are both sustainable and scalable. That long-term view — paired with the ability to act quickly and responsibly — is what keeps us ahead.

Beyond waste and water management, V Group is also making significant strides in sustainable energy production. Could you shed light on your initiatives in renewable energy, and how they align with the global shift towards green energy solutions?

Absolutely. For us, the shift toward renewable energy isn't just a trend — it's a strategic direction that complements our core mission of environmental protection and sustainability.

We've taken concrete steps to integrate renewable energy solutions into our operations, starting with our own facilities. Our goal is to reduce dependency on conventional energy sources and move toward energy self-sufficiency wherever possible. This includes investing in clean energy infrastructure, optimizing energy use across our plants, and gradually transitioning our operations toward net-zero emissions.

These efforts align with our broader environmental philosophy and with global momentum toward decarbonization. We view energy not as a separate sector, but as an essential component of a circular and sustainable economy.

What matters most is that our renewable energy initiatives are not standalone — they are part of a comprehensive approach that connects waste management, resource recovery, and clean energy into a unified environmental strategy.

Your company and family are deeply engaged in philanthropic and social initiatives. Can you share more about V Group's corporate social responsibility programs and the causes that are most important to you?

This is actually a part of our work that I rarely speak about — not because it's not important, but because I've always believed that actions speak louder than words. For me, true responsibility isn't something you advertise; it's something you practice quietly, consistently, and with sincerity.

What I can say is that we remain deeply committed to supporting those in need, especially in times of crisis or hardship. It's not about visibility. It's about showing up, doing the right thing and doing it without expecting recognition.

Testimonials Chamber's February Events

I was glad to attend the exceptional events of the Arab-Hellenic Chamber of Commerce & Development "6th meet the Arab ambassadors" & 5th Workshop "Doing Business in the Arab World", a constructive initiative that promotes the close cooperation between Greece and the Arab world. The Arab-Hellenic Chamber, offers a dynamic, commendable platform for dialogue on critical issues concerning the business future of both sides. During the events, we had the opportunity to highlight the actions of the "National Strategic Plan for Extroversion" in Arab Countries for 2025 and the significant deepening of our economic cooperation in trade and investment, especially in the energy, agri-food and construction sectors.

Dimitris Skalkos

Secretary General for International Economic Affairs
Greek Ministry of Foreign Affairs & Chairman of the Enterprise Greece Board

At Extraplastica Industrial SA, we will always turn to the actions of the Arab-Hellenic Chamber of Commerce to meet future partners, and eventually familiar faces—honorable and active members of the Greek, Arab, and international communities. Trust is the cornerstone between people, and we believe that the Chamber's activities have substance and a human touch, combined with utmost professionalism and knowledge. They offer an incredible platform for communication, opening the doors to collaboration between members of the Arab community and the Greek one. We thank you and look forward to furthering our cooperation!

Xenia Kaponi

Marketing Communications Manager
EXTRAPLASTICA INDUSTRIAL SA

It was an excellent event, featuring insightful presentations and valuable networking opportunities. The lunch break played a key role in facilitating connections, as did the chamber's partners, who provided great support in networking. Thank you for the well-organized experience—we look forward to attending again next year!

Thalia Vrontisi

Non-Regulated Services
Projects & Business Development
Specialist
DESFA S.A.

I found the 6th Round Table "Meet the Arab Ambassadors" very interesting. In a very short time, I was informed about business and investment opportunities, as well as the incentives and facilitation measures offered by

each country. Otherwise, it would have taken me a long time to gather all this information. Kudos to the Arab Hellenic Chamber!

Dimitris Papanikolaou
Executive Director
NOVA CONSTRUCTIONS S.A.

I was honored to participate in the Arab-Hellenic Chamber's event Doing Business in the Arab World, where I had the opportunity to present the investment landscape in Tunisia and the opportunities available for Greek companies. Engaging with business leaders and stakeholders reinforced the potential for stronger economic ties and fruitful collaborations. The event provided a valuable platform for exchanging insights and fostering connections that can drive future investments.

Stamatios Zachariadis
Head of Office for Economic and Commercial Affairs
EMBASSY OF GREECE IN TUNIS

The event was truly delightful, well-organized, and rich in valuable

content. We received a lot of useful information and had the opportunity to meet persons who can support Greek businesses in the Arab countries. It was an excellent experience overall!

Triantafyllia Kazani
Operations Manager
PIERIDES TECHNOSYSTEMS S.A.

It was a very well organized event and an excellent opportunity to discuss with colleagues and entrepreneurs about the Arab markets. We exchanged experiences and views, made new acquaintances, and had fruitful meetings.

Maria Foka
First Secretary of Economic and Commercial Affairs
B5 Directorate for Bilateral and Economic Relations (handling Iraq)
MINISTRY OF FOREIGN AFFAIRS S

The Arab world has had excellent political and economic relations with Greece over many decades. Nevertheless, as the Arab countries economically grow and advance the sophistication and capabilities of their economies, Greek businesses and the

relevant institutions need to monitor developments and constantly adjust their extrovert model for bilateral trade and investments. Today's meeting was part of this ongoing process which needs to intensify and especially to focus on a more dynamic presence of Greek businesses in the respective countries.

Konstantinos Zaimis
Business Development Manager
STEELMET

The New Year's Pita Cutting event was a wonderful reminder of the close ties we share with the Arab Hellenic Chamber. At Agrovim, we extend our heartfelt gratitude for the trust and collaboration that continue to grow between us.

John Kyriakopoulos
Export Area Manager
AGRO.VI.M S.A.

The event served as an exceptional platform to explore strategic partnerships and investment opportunities in the aviation sector, strengthening ties between Greece and the Arab world. Through insightful exchanges and dynamic

Oil and nuts trading

The 'Meet the Arab Ambassadors' Roundtable' and the 'Doing Business in the Arab World Workshop' provided valuable insights on opportunities for Arab-Greek cooperation in various business sectors. The event also offered unique networking opportunities with key stakeholders. My sincere congratulations and

thanks to the Arab Hellenic Chamber for the well-organized forum. I highly recommend this event to all companies looking to strengthen their business in the Arab world.

Dr. Mary Papaschinopoulou

Founding Partner
MAR-DIPLO

It was a great honor to participate at the 6th MEET THE ARAB AMBASSADORS & 5th WORKSHOP DOING BUSINESS IN THE ARAB WORLD. We believe that these important events are exclusively designed for Greek SMEs that aim to expand their activities in the Arab markets.

We will be very happy to participate at the near future to other important events organized by your Chamber and we strongly believe that you provide all the opportunities for the development and consolidation of Greek companies in the Arab world.

Yiannis Vassalos

Unlocking the Future of Energy Transition: A Deep Dive into DESFA

*DESFA Highlights Energy Innovation
& Collaboration at its First Event in Kuwait*

DESFA, Greece's Gas Transmission System Operator and KIPIC's (Kuwait Integrated Petroleum Industries Company) partner in the operation and management of the Al-Zour LNG import terminal, hosted its first event in Kuwait titled **"Unlocking the Future of Energy: A Deep Dive into DESFA"** on February 12, 2025. The event focused on showcasing innovative strategies and technological advancements, as well as exploring collaboration opportunities to support the energy transition toward more sustainable and cleaner energy systems.

The event brought together industry leaders, government officials, academia and stakeholders from various sectors to explore the evolving energy landscape in Europe and Kuwait and strengthen synergies among the two countries. The forum was designed to provide an in-depth understanding of DESFA's pivotal role in the transmission of natural gas and the company's active participation in the transition toward renewable energy solutions.

The event honored with their presence His Excellencies the Ambassador of the Hellenic Republic to the State of Kuwait and the Kingdom of Bahrain, Mr. **Ioannis Plotas**, and the Ambassador of Cyprus in the State of Kuwait, Mr. **Andreas Panagiotou**.

Opening remarks by **DESFA CEO Maria Rita Galli**, the Greek Ambassador **Ioannis Plotas** and **Konstantinos Maroulis**, DESFA's LNGI O&M Contractor Representative and Plant Manager at KIPIC, set the stage for an insightful discussion, underscoring the strong partnership between Greece and Kuwait, as well as DESFA's expertise in

managing world-class gas infrastructure. This was exemplified by the operational excellence recorded at KIPIC's Al-Zour LNG Terminal and DESFA's experience with the Revithoussa LNG Terminal, a cornerstone of Southeast European energy security and supply sources diversification.

DESFA CEO, **Maria Rita Galli**, mentioned during her welcome note: "This day aims to present our company and showcase our extensive experience and presence in Kuwait for the past four years, operating with excellency the KIPIC LNGI Terminal. It is an opportunity for us to share our know-how as a European gas TSO, deploying our efforts to combine our key competencies and expertise to address the energy trilemma: availability, affordability and sustainability."

The company's executives had the chance to share the best practices and present the integrated energy solutions

offered by DESFA, as well its efforts in sustainability and ESG reporting, analyzing also the company's net zero master plan and commitments. During the event, DESFA highlighted its significant efforts to modernize Greece's energy infrastructure, ensuring energy security, and promoting decarbonization. The company also showcased its various initiatives aimed at integrating green energy sources, such as hydrogen, biomethane, and renewable gases, as well as innovative decarbonization solutions, like carbon capture management and storage, positioning DESFA as a central player in achieving a sustainable energy future.

A dynamic panel featured **Mr. Abdullah Al-Ajmi** (Team Leader Gas Operations from KIPIC), **Mr. Ioannis Chomatas** (Chief Asset Development Officer from DESFA) and **Mr. Konstantinos Maroulis** (KIPIC/LNGI O&M Contractor Representative & Plant Manager from DESFA), offering insights into the key role of LNG as a reliable and cleaner energy source, serving as a bridge fuel on the road to energy transition for both Europe and Kuwait and the importance of advancing the carbon capture storage (CCS) value chain.

DESFA's event in Kuwait reaffirmed the company's

commitment to innovation and operational excellence, as a trusted energy partner in the region, exploring collaborative efforts and synergies to accelerate the global transition to cleaner energy.

About the Hellenic Gas Transmission System Operator (DESFA) S.A.

The Hellenic Gas Transmission System Operator (DESFA) S.A. is responsible for the operation, management, use and development of the Hellenic Natural Gas System. Possessing extensive experience and having highly skilled personnel, DESFA is a reliable partner in the framework of the ongoing international energy projects in Southeastern Europe, and beyond. DESFA is the enabler of a sustainable energy future, accelerating Greece's energy transition towards a decarbonized economy. DESFA shareholders are 34% the Greek State and 66% Senfluga S.A. (formed by Snam, Enagas, Fluxys and Damco).

For additional information concerning DESFA you can visit the following website: www.desfa.gr

For more information please contact:

Natasha Chatziantoniou, DESFA, tel. 213 088 4058, email: a.chatziantoniou@desfa.gr

Enterprise Greece at the International EGYPES 2025 Exhibition

Energy Cooperation between Greece and Egypt is Maturing

For another year, Enterprise Greece organized the Greek pavilion at the International Egypt Energy Show (EGYPES), held at Egypt's international exhibition center in Cairo from 17 to 19 February 2025.

EGYPES is one of the most significant trade fairs in oil, natural gas, renewable energy sources, and digital transition for the energy sector. It covers the broader region of the Middle East, North Africa, and the Mediterranean, and is held under the patronage of the President of the Arab Republic of Egypt.

This year's event spanned 39,000 square meters and featured over 500 exhibitors from 120 countries across 11 national pavilions. It attracted more than 47,000 visitors, including local and international energy companies exploring business development prospects in Egypt, North Africa, the Middle East, and the Eastern Mediterranean. Visitors also had the chance to learn about the development of new projects, the strategic priorities of energy transition and security, and economic growth in the broader Southeast Mediterranean region. During the trade fair, the Enterprise Greece delegation held a series of meetings aimed at promoting the export of products and services from the Greek energy sector and attracting new investments and business development opportunities. These initiatives are being

shaped by the country's successful progress toward the green transition and its emergence as a regional energy hub.

Commenting on the country's presence and the prospects in the energy sector, Enterprise Greece's CEO, Dr. Marinos Giannopoulos, stated:

"Amid the significant changes in energy supply and security, and given the global shift towards green energy, this sector is experiencing dynamic growth. The substantial increase in the share of renewable energy sources in our energy mix, along with the ongoing upgrade of Greece's international interconnections with neighboring countries, led to our country recording a negative balance in its international electrical interconnections for the first time in 2024, with the year closing with a surplus for the first time since 2000. This not only confirms our steady progress toward energy self-sufficiency but also signals our gradual transition into an energy exporter. Enterprise Greece will continue to support the internationalization of Greek energy companies through targeted initiatives, including B2B meetings, investor networking events, business missions, and participation in all major international trade fairs and events."

The conference segment of EGYPES 2025, themed

"Building a Safe and Sustainable Energy Future," featured a series of parallel sessions focusing on topics such as Strategy, Technical Issues, Sustainability, Financing and Investments, and Dialogue with Africa. Particularly notable was the strong Greek presence, with distinguished speakers including the Minister of Environment and Energy, Mr. Th. Skylakakis; the Deputy Minister of Energy and Environment, Ms. A. Sdoukou; the CEO of DESFA, Ms. M. Gali; the CEO of Energean, Mr. M. Rigas; the CEO of HELLENIQ Energy, Mr. A. Siamisis; and the Vice President of the Copelouzos Group, Mr. Th. Achimastos.

During the conference, a Greek-Egyptian Memorandum of Cooperation in carbon capture, storage, and utilization (CCUS) was signed, aimed at exchanging expertise and developing storage facilities between the Ministers of Energy of Greece and Egypt. Additionally,

significant energy projects of Greek interest were showcased, such as the international Greece-Egypt electricity interconnection (GREGY), the research and development of hydrocarbons in the South Ionian region and Crete, the offshore wind development program, and specific CCUS projects currently under development in our country.

At the Greek pavilion, in addition to Enterprise Greece, the companies ASPROFOS ENGINEERING (a member of the Helleniq Energy Group) and EDEYPE S.A. participated. Representing the sectors of technical studies for energy projects, natural gas transportation services, and the management and development of energy resources, these companies conducted significant meetings that resulted in the signing of new contracts, further promoting the internationalization of the sector.

Source: Enterprise Greece Press Office

Congratulations, Abu Qaysar!

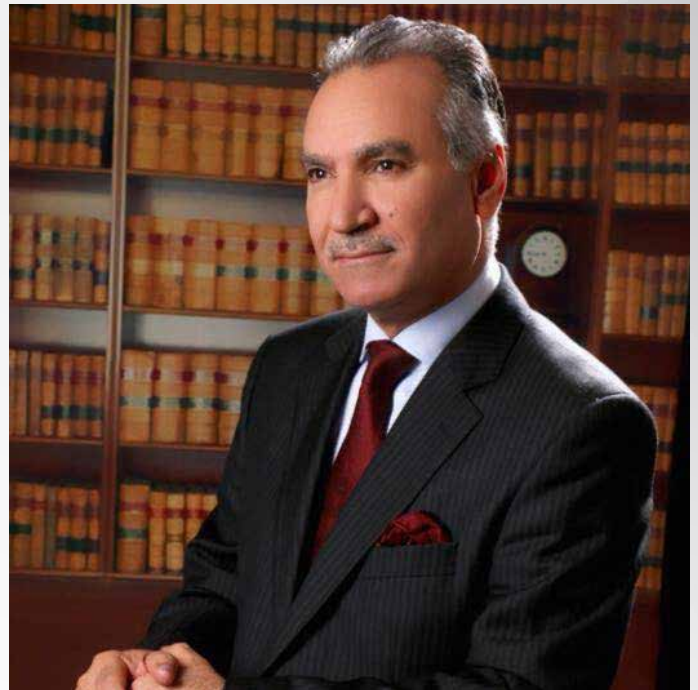

We are pleased to announce that on April 23rd, Mr. Abdullah Al-Giburi, a prominent Iraqi businessman and esteemed member of our Chamber, was elected Vice President of the Council for the Development of the Private Sector of Iraq.

The election took place in the presence of Mr. Ali Rzuki, representative of the Prime Minister's Office, and was supervised by Mr. Maher Guhan, Technical Secretary General of the Ministry of Planning, with the participation of Dr. Hana' Al-Asadi, Deputy Minister of the Ministry. Out of 28 Council members, 26 participated in the election.

The Council is tasked with formulating a long-term vision and strategic framework aimed at diversifying Iraq's sources of revenue, with a strong emphasis on private sector engagement. Key priorities include revitalizing small and medium-sized industries and expanding non-oil exports. The ultimate goal is to position the private sector as the primary engine of economic diversification.

We take this opportunity to extend our heartfelt congratulations to Mr. Al-Giburi on this significant achievement. Notably, he has recently completed the development of a seven-star hotel, which will host the Kings and Presidents of the Arab States and accompanying delegations participating in the upcoming 34th Arab Summit organized by the Arab League on May 17th, at the Iraqi Government Palace.

Farewell Luncheon in Honor of H.E. Dr. Saad Alammar

After more than four years of distinguished service, His Excellency Dr. Saad Alammar, Ambassador of the Kingdom of Saudi Arabia to the Hellenic Republic, has concluded his diplomatic mission and returned to his home country. During his tenure, H.E. Dr. Alammar made remarkable contributions to strengthening Saudi-Greek relations across a wide range of sectors. His presence left a profound impact not only on bilateral ties but also on all those who had the privilege of working with him — fellow Arab and non-Arab ambassadors, business leaders, and all of us at the Arab-Hellenic Chamber.

In his dual role as Ambassador and Dean of the Council of Arab Ambassadors, H.E. Dr. Alammar was a steadfast supporter of the Chamber's initiatives. His commitment and cooperation were instrumental in enhancing Saudi Arabia's active participation in our events and activities.

To mark the conclusion of his assignment, the newly appointed Dean of Arab Ambassadors, H.E. Mr. Muayed Saleh, Ambassador of the Republic of Iraq, hosted a farewell luncheon on Wednesday, April 23rd. In his remarks, H.E. Ambassador Saleh expressed sincere appreciation for H.E. Dr. Alammar's professionalism, leadership, and friendship, and extended best wishes for continued success upon his return to Saudi Arabia.

In his address, H.E. Dr. Alammar warmly thanked his colleagues — ambassadors and *chargés d'affaires* — for their friendship and support, and conveyed his best wishes for their ongoing missions in Greece.

Farewell Luncheon in Honor of H.E. Dr. Saad Alammar

The event also featured the presentation of commemorative trophies to H.E. Dr. Alammar by the Arab Ambassadors and by Mr. Rashad Mabger, Secretary General of the Arab-Hellenic Chamber, who expressed his heartfelt gratitude for H.E. Dr. Alammar's consistent support of the Chamber's work and his valuable contributions in his capacity as both Ambassador and Dean.

We at the Arab-Hellenic Chamber extend our deepest appreciation to His Excellency Dr. Saad Alammar. We thank him for his exemplary service, dedication, and friendship, and wish him every success in his future endeavors.

Congratulations, Mr. Ambassador!

H.E. Mr. Mouayed Saleh, Ambassador of the Republic of Iraq to Greece since March 2021, has replaced the former Ambassador of the Kingdom of Saudi Arabia as Dean of the Arab Diplomatic Corps in Greece.

His Excellency began his long professional experience in the United States in the field of Electronics Engineering in 1989 and moved to the Office of the Prime Minister of the Republic of Iraq, Baghdad, in 2007, as Director General of Foreign Relations and Political Affairs. He then proceeded as the Ambassador at the Ministry of Foreign Affairs of the Republic of Iraq, Baghdad (2009 – 2010) and from 2010 to 2015 he served as Ambassador Extraordinary and Plenipotentiary of the Republic of Iraq to Australia (Resident in Canberra), while serving as Non-Resident Ambassador Extraordinary and Plenipotentiary of the Republic of Iraq to New Zealand (2011 – 2015) and as Non-Resident Ambassador Extraordinary and Plenipotentiary of the Republic of Iraq to the Republic of Fiji (2015).

His career took a turn in 2016 when he moved as Permanent Representative of the Republic of Iraq to the United Nations Office & other International Organizations at Geneva, where he remained until 2019 and during which period he undertook the posts of Vice-President of the Human Rights Council (2017), President of the Arab Permanent Representatives Group (Jan.-Jun. 2017), Ambassador Permanent Representative of the Republic of Iraq to the Conference on Disarmament, Vice-President of the 10th Conference of the High Contracting Parties to Protocol V on Explosives Remnants of War –CCW (2016) and Vice-President of the Eight Review Conference of the Biological Weapons Convention (BWC) (2016).

Prior to arriving to Athens, Ambassador Mouayed was appointed Deputy Minister for Administrative & Financial Affairs at the Iraqi Ministry of Foreign Affairs from 2019 to 2021.

H.E. Ambassador Mouayed Saleh has attended and participated, throughout his impressive career various high-level meetings and conferences and he is fluent in English and Arabic.

The Arab – Hellenic Chamber seizes this opportunity to assure His Excellency of its dedication to promoting Greek – Iraqi and Greek – Arab relations at large in all business domains.

New Secretary General for the French – Arab Chamber of Commerce

Mrs. Rayanne Kanaan has been appointed by the Union of Arab Chambers as the new Secretary General of the French – Arab Chamber of Commerce (CCFA). Mrs. Kanaan is assuming her duties as of May 2025. This appointment comes at a right time for our sister Chamber.

The appointment of Mrs. Kanaan is a big on her personally and professionally to enhance and elevate the work and activities of the French-Arab Chamber in Paris and contribute to further increasing the balance of trade and investment between France and the Arab countries.

Mrs. Kanaan is a French-Lebanese expert in public affairs, governance, and auditing, with over 11 years of international professional experience, particularly in the energy, finance, and insurance sectors.

Prior to her appointment at the CCFA, she was Head of Public Affairs and Advocacy at TotalEnergies in Paris, where she led influence strategies, represented the company in professional forums and European institutions (European Commission, Solar Power Europe), and participated in the formulation of public policies related to the energy sector.

She previously worked as an internal auditor and audit mission coordinator at TotalEnergies, leading missions in more than 20 countries worldwide, focusing on governance, compliance, anti-money laundering, and data protection laws. She also held similar positions at Coface for Trade and Credit Agricole Bank.

Mrs. Kanaan holds a Master's degree with honors from the National School of Administration (ENA) in France, and a Master's degree in Governance and Strategy from

the University of Paris Dauphine. She has also completed professional training at the Institute of Higher Studies for National Security and Defense (IHEDN), a section of the French Ministry of the Armed Forces.

We, at the Arab-Hellenic Chamber, welcome Mrs. Kanaan to the family of the Arab-Foreign Joint Chambers and we wish her the best of success in her endeavors. We would also like to assure her of our intention to cooperate closely in order to promote the bilateral business partnerships between the Arab world and foreign business communities.

Dr. Waiel S. Awwad Acting Secretary General (IACCIA)

India & Arab Countries
Chamber of Commerce
Industry & Agriculture
غرفة التجارة والصناعة والزراعة العربية الهندية

Dr. Waiel is a business Consultant & Strategic Partner in MENA-India Relations. Based in South Asia for over 40 years, Dr. Waiel Awwad has built a distinguished career spanning medicine, journalism, and business consultancy. He is the founder of companies registered in both the UAE and Spain, and currently serves as a strategic partner with **Optimax Ace**, leading business initiatives across the Middle East and North Africa (MENA).

He plays a key role in promoting cross-border collaboration, particularly between **India and the Arab world**, across sectors such as trade, investment, and industrial development. His appointment as the **(Coordinator) Acting Secretary General) for the India-Arab Countries Chamber of Commerce, Industry, and Agriculture (IACCIA)** marks his commitment to strengthening bilateral and multilateral economic ties in the region.

A well-known and highly respected figure in India and South Asia, Dr. Awwad is recognized for his strong reputation, deep regional insight, and influential network that bridges cultures and opens doors to lasting business partnerships.

We, at the Arab-Hellenic Chamber, welcome Mr. Awwad

to the family of the Arab-Foreign Joint Chambers and we wish him the best of success in his endeavors. We would also like to assure him of our intention to cooperate closely in order to promote the bilateral business partnerships between the Arab world and foreign business communities.

Avokado (<https://avokado.energy/>) is a wholly owned subsidiary of METLEN Energy & Metals (<https://www.metlengroup.com/>).

Our company is based in Athens, and was founded as a spin-off of the Applied R&D department of Protergia, the Electricity and Natural Gas Unit of METLEN Energy & Metals, in 2022.

We want to catalyze the Energy market shift from conventional business models towards flexibility with affordable and easy-to-use Energy Artificial Intelligence offerings.

Our mission is to turn Artificial Intelligence into a knowledge and intelligence “toolkit” that makes energy value chains better for the economy and the society.

AVOKADO AI offerings for utilities, businesses and smart cities

- Avos - a unique AI-powered Operating System for the optimization of Battery Energy Storage Systems (BESS) in residential, industrial, services and commercial settings.
- Avox - a comprehensive Energy AI platform which provides multiple ML models for energy consumption and production optimization, day-ahead forecasting of electricity consumption, dynamic calculation of energy baseline and solar PV production from rooftop and fleet-level solar parks.
- Cortex Generative AI Assistant - a versatile Generative AI assistant designed to simplify and "humanize" the way we deliver Energy AI to utilities and prosumers (industrial, commercial, service companies, and smart cities) through video, voice, and text.
- Energy AI managed services for industrial, commercial, service companies, and smart cities lacking in-house Energy AI expertise and resources.

The **Athens Medical Group** was founded in 1984 by Dr. George Apostolopoulos, with the establishment of the Athens Medical Center in Marousi, aiming to provide high quality, integrated healthcare services, based on a patient – centered approach. From the first years of its operation, it became a “catalyst” of progress in Healthcare, being the first Greek medical institution to introduce state-of-the-art medical equipment and secure collaborations with distinguished scientists, thus providing services equal to those of internationally acclaimed hospitals. Through continuous investments both in Greece and abroad, it is now one of the most dynamic Healthcare organizations and reliable providers of diagnostic and hospitalization services, worldwide.

Moreover, having successfully responded to the challenges of Greece's long-term financial crisis and the COVID-19 pandemic, the group is now charting and implementing a dynamic and outward-looking path. This includes strategic partnerships in Cyprus and Egypt, as well as participation in the global hospital network of the leading British institution Imperial College Healthcare NHS Trust, with the goal of maintaining its leadership position in healthcare for the coming decades.

Today, in Greece, the group operates 8 state-of-the-art medical facilities. These include six facilities in the greater Athens area: the Athens Medical Center and the Pediatric Medical Center in Marousi, the Psychiko Clinic, the Paleo Faliro Clinic, the Peristeri Clinic, the Dafne Clinic, and in Thessaloniki, the European Interbalkan Medical Center and the International Oncology Center. At the same time, AMG owns and operates three diagnostic centers in Romania through its 100% subsidiary “Medsana” and is in the process of establishing a fourth Center. Overall, the Group has 1,400 high-standard hospital beds, a network of 3,000 highly qualified associate physicians, and 3,495 highly specialized full-time employees.

In the Greece of 2022, many young people, even though they have realized the difficulties of survival, they decide to stay in their country, to study, to produce, to create income and help themselves, their families and their country! One of these young people, Ioannis Stivaktas, a graduate of the Department of Shipping at the University of Piraeus, during his studies, he read what Odysseus Elytis, the Nobel Prize-winning poet, had written:

"If you disintegrate Greece, you will see that you are left with an olive tree a vine and a boat'.

which means:

With the same things you can rebuild it.

The above words of the Greek poet, gave the inspiration to Ioannis Stivaktas, to decide to cultivate himself, with the help of specialized and experienced partners, the family olive grove in Vatika, Laconia. So, he created "**OLIVE TENTATION**", in order to promote the extra virgin olive oil, which his family and friends have been tasting for so many years and that's how the journey began...

Sanilia, shape revolution is in the business of umbrella manufacturing since 1960.

We manufacture umbrellas for professional use.

Through all these years we have been driven by three guiding principles: Creation, Quality, Evolution.

- We create by designing customized, integrated solutions.
- We insist on delivering quality on product and services. This delivery of quality on a regular basis has been certified by the Austrian TUV.
- Through our everyday operation we are evolving so that we are always innovative, reliable and competitive.

Our mission is to provide the appropriate, reliable solutions to the professional who wishes the operational optimization of his external and internal space, in combination with the right promotion of his products.

Within the framework of our constant evolution, SANILIA is constantly innovating, having introduced to the Greek market new products, services and practices, such as:

- CAD-CAM Design
- Mass production of advertising umbrellas with digital printings
- Folding shelters in a variety of dimensions, allowing for unlimited applications in kind and volume (from promotional activities and events to concerts)
- Modular screen separators of external space.

PHRS Now Accredited for FuelEU Maritime Compliance Helping Shipowners Stay Ahead of EU Climate Regulations

As of February 25, 2025, Phoenix Register of Shipping (PHRS) is officially accredited by the Hellenic Accreditation System (ESYD) to assess FuelEU Monitoring Plans and verify FuelEU Maritime Reports.

This is an exciting step forward as the shipping industry gears up for the FuelEU Maritime Regulation—a major part of the EU's Fit for 55 climate strategy. The regulation, working alongside the EU Emissions Trading System (EU ETS), aims to cut greenhouse gas emissions from ships by 55% by 2030. It requires vessels calling at EU ports to steadily reduce the carbon intensity of their fuel, making accurate monitoring, reporting, and verification (MRV) more important than ever.

With a skilled team and a dedicated Marine Environmental Sustainability Department, PHRS is ready to support shipping companies through these changes. The goal? To make the verification process as smooth, efficient, and unobtrusive as possible—so vessels stay compliant without delays or disruption.

Whether you're preparing for compliance or need guidance on what's next, our team is here to help.

STIRIXIS Group: Awarded for the design of the best public space in the world and the best offices in Europe.

STIRIXIS Group wins two top distinctions at the International Property Awards, reaffirming its position as a global leader in strategic design. The company was honored for the **Qassim University auditorium in Saudi Arabia**, which received the award for “Best Public Service Design in the World,” and for the **Coca-Cola HBC offices in Switzerland**, which were recognized as the “Best in Europe Office Interior” and nominated for “Best Interior Office Design in the World.”

The award in the education sector highlights STIRIXIS Group’s commitment to creating spaces that inspire and enhance learning, while the recognition in workplace design confirms the company’s ability to combine aesthetics, functionality, and strategy.

The Vice President & Executive Director Elena Kyrnassiou- Athanassoula stated: “These distinctions reflect our dedication to delivering strategic solutions that create real value.”

With over 850 projects in 29 countries and 60+ awards, STIRIXIS Group continues to innovate, adapting design to the needs of the future and setting new global standards in the business and architectural landscape.

Erato White by Iktinos – A New Chapter in Elegance

IKTINOS HELLAS S.A. proudly unveils Erato White, a striking new addition to its premium marble collection. This polished luminous white material with new timeless elegance, has already captured the interest of clients in the Gulf region.

Visitors had already the exclusive opportunity to explore Erato White up close at the BIG 5 SAUDI 2025 exhibition in Riyadh, where Iktinos had a strong presence. This year, our booth welcomed over 80 distinguished guests from 25 countries, including Mr. Alexis Konstantopoulos, Greek Ambassador to Saudi Arabia, and Ms. Vivi Kalamara of Enterprise Greece S.A. The exhibition marked the beginning of promising partnerships with key players from Saudi Arabia, the UAE, and Qatar.

Iktinos marbles are featured in high-profile architectural projects across Saudi Arabia, such as the **MEKKAH Mosque (Thassos)**, **Four Seasons Hotel Riyadh (Nestos)**, **Ministry of Interior (Nestos & Volakas)**, and **NAUSS University (Nestos)**.

A testament to our commitment to quality and prestige.

Explore our exclusive quarry materials: Golden Spider, Nestos, Thassos White, Kalliston, Volakas, along with other top-tier Greek marbles like Silver Grey, Era Grey, Levadia Black, and Kavala White.

Next stop: BIG 5 Dubai, UAE, 24–27 November. We look forward to welcoming you!

Greek Golden Visa: Trusted Legal Guidance by Charalampos Pontikopoulos

Greece's Golden Visa program offers non-EU investors a five-year renewable residence permit in exchange for a qualifying investment, most commonly through real estate. With a minimum investment starting at €400,000—depending on location—the program remains one of the most competitive in Europe.

Arab investors have increasingly turned to Greece, attracted by its strategic geographic position, access to the EU and Schengen Zone, and high quality of life. The permit includes the investor's spouse, children up to 21, and even the parents of both spouses, allowing entire families to benefit.

Importantly, the Golden Visa has no minimum stay requirement. Investors can maintain their permit while residing abroad, yet enjoy full freedom of travel within the Schengen area.

With growing Arab-Greek business relations, Greece presents not only a lifestyle opportunity but also a gateway for long-term investment and mobility in Europe. Legal expertise is key to navigating the process smoothly and securely.

A Proud Milestone for Fine Goods!

Fine Goods is proud to announce its distinguished recognition at the Greek Exports Awards 2025, securing three awards that underscore our strategic commitment to excellence in international commerce:

- **Gold Award** in the **Top Export Service** category, acknowledging the high standards and effectiveness of our comprehensive export services and tailored consulting solutions, supporting global trade activities.
- **Silver Award** in the **Top Export Company Site** category, for our export-dedicated digital platform, designed to optimize international visibility and promote our export-driven initiatives.
- **Bronze Award** in the **Top Export Consultant** category, recognizing our deep expertise and methodological approach in managing the entire export lifecycle, from strategic planning to successful market entry and growth.

These accolades reflect Fine Goods' ongoing dedication to operational excellence, innovation, and client-centered service. We remain committed to empowering businesses to expand globally, delivering measurable results, and setting new benchmarks in the export sector.

We sincerely thank our team, partners, and stakeholders for their unwavering trust and support in this journey toward global leadership.

About Fine Goods

Fine Goods specializes in connecting premium food producers with global markets. Since 2016, we have operated as an independent export office, supporting the international growth of producers and providing buyers access to exceptional products from Greece, Cyprus, Italy, Spain, Switzerland, and France.

With over 25 years of experience in international trade, we simplify exports, create new opportunities, and ensure seamless transactions. We proudly collaborate with both artisanal producers and renowned brands, always driven by a commitment to quality, authenticity, and excellence.

At Fine Goods, we offer strategic expertise and tailor-made solutions, empowering our partners to achieve sustainable success in the global marketplace.

India & Arab Countries Chamber of Commerce Industry & Agriculture

غرفة التجارة والصناعة والزراعة العربية الهندية

الدكتور وائل عواد قائم بأعمال الأمين العام

الدكتور وائل مستشار أعمال وشريك استراتيجي في العلاقات بين الدول العربية والهند. يقيم في جنوب آسيا منذ أكثر من 40 عامًا، وقد بنى الدكتور وائل مسيرة مهنية متميزة شملت مجالات الطب، والصحافة، والاستشارات التجارية. وهو مؤسس لشركات مسجلة في كل من دولة الإمارات العربية المتحدة وإسبانيا، ويشغل حاليًا منصب شريك استراتيجي في شركة Optimax حيث يقود المبادرات التجارية في منطقة Ace الشرق الأوسط وشمال أفريقيا.

يلعب دورًا محوريًا في تعزيز التعاون العابر للحدود، خاصةً بين الهند والدول العربية، في مجالات التجارة والاستثمار والتنمية الصناعية. وقد تم تعيينه المكلف بإدارة شؤون الغرفة التجارية والصناعة والزراعة بين الهند والدول العربية، وهي منصة جديدة تهدف إلى تعزيز العلاقات الاقتصادية الثنائية والمتعددة الأطراف.

يُعد الدكتور وائل شخصية معروفة ومرموقة في الهند وجنوب آسيا، ويتميز بسمعة طيبة وشبكة علاقات واسعة، مما يجعله جسرًا فعالًا بين الثقافات وفرص التعاون التجاري الناجح.

بمناسبة هذا التكليف، نتقدم بالتهنئة الى زميلنا وائل على هذه الثقة ونحن بدورنا على ثقة في جهده وعمله في تعزيز علاقات بلادنا العربية مع الهند، وبما يخدم مصالحنا وقضايانا، ونتطلع في الغرفة العربية-اليونانية الى تعاون وثيق مع الغرفة العربية الهندية في كل قطاعات العمل.

ريان كنعان

الأمين العام للغرفة التجارية العربية-الفرنسية

عين مجلس اتحاد الغرف العربية السيدة ريان كنعان لمنصب الأمين العام للغرفة التجارية العربية-الفرنسية، ومن المقرر ان تباشر مهام عملها في الغرفة اعتباراً من اول شهر مايو 2025. تعد الغرفة التجارية العربية-الفرنسية احدى اهم واقدم الغرف العربية الاجنبية المشتركة، وكغيرها من الغرف المشتركة العربية جاء تأسيسها بمبادرة من القطاع الخاص العربي بهدف توثيق العلاقات التجارية والاستثمارية بين بلادنا العربية والدول الأوروبية، ومهام الامين العام في الغرفة ادارة الجهاز التنفيذي وتفعيل عمل الغرفة من خلال المنتديات والفعاليات المشتركة والمساعدة في فتح قنوات التواصل بين رجال الأعمال العرب ونظرائهم في دول المقر لهذه الغرف.

شغلت السيدة ريان وظيفة رئيس قسم الشؤون العامة والدفاع عن المصالح لدى شركة "TotalEnergies" حيث كانت تقود استراتيجيات التأثير كما قامت في تمثيل الشركة في المحافل الأوروبية التي تعنى في صياغة السياسات العامة المتعلقة بقطاع الطاقة. وعملت في الشركة نفسها كممدقق داخلي ومنسق مهام التدقيق في اكثر من 20 دولة، وقد اكسبها عملها هذا خبرة في الحوكمة ومكافحة غسيل الأموال وقوانين حماية البيانات.

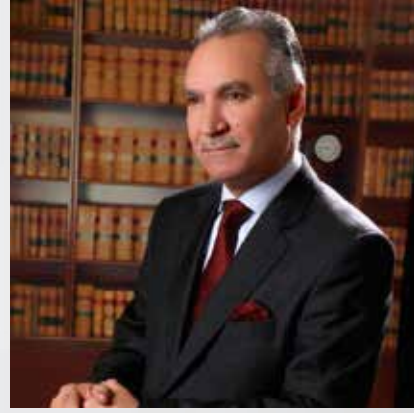

الى جانب مسيرتها المهنية، تنشط ريان في مبادرات الشباب والقيادة، حيث شاركت في القمة العالمية لعالم الشباب وتعمل في لجنة الطاقة الشبابية "IHEDN".

السيدة كنعان لبنانية الأصل وتحمل الجنسية الفرنسية، حاصلة على درجة الماجستير بالمدرسة الوطنية للإدارة "ENA" في فرنسا مع مرتبة الشرف، وماجستير في الحوكمة والاستراتيجيات في جامعة "Université Paris Dauphine" كما تلقت تدريبات مهنية في معهد الدراسات العليا والدفاع الوطني.

نود في الغرفة العربية-اليونانية ان نتقدم بالتهنئة الى زميلتنا السيدة ريان على الثقة التي نالتها والتي جاءت في وقتها المناسب، وهي جديرة بهذه الثقة، ونتطلع معاً الى تعاون وثيق لتعزيز وتوثيق التعاون العربي-الأوروبي في قطاعات العمل كافة.

ألف مبروك يا ريان.

عبدالله الجبوري نائب رئيس مجلس تطوير القطاع الخاص العراقي

في 13 أبريل 2025 اجتمع مجلس تطوير القطاع الخاص العراقي للتداول وإجراء انتخابات المجلس. قد تم ذلك بحضور د. علي رزوقي ممثلاً عن مكتب رئيس الوزراء وبمشاركة د. هناء الاسدي الوكيل الإداري لوزارة التخطيط، وأدار جلسة الانتخابات السيد ماهر جوهان الوكيل الفني لوزارة التخطيط. شارك في التصويت 26 عضواً من أصل 28 عضواً من المجلس. والجدير بالذكر ان هذا المجلس تحت رئاسة فخامة محمد شياح السوداني رئيس الوزراء العراقي. جرت الانتخابات في أجواء ابتسمت بالشفافية والتنظيم، وقد تم انتخاب رجل الأعمال المعروف عبدالله الجبوري نائباً لرئيس مجلس تطوير القطاع الخاص. ومن المتوقع أن يباشر مجلس تطوير القطاع الخاص ووضعه رؤيته وخطط متكاملة لتعزيز إرادات العراق غير النفطية.

يعكس إنشاء هذا المجلس اهتمام فخامة رئيس الوزراء للدور الرئيسي للقطاع الخاص العراقي في المشاركة في تحقيق التنمية الشاملة والمستدامة. ولهذا فإن المجلس سوف يقوم بوضع رؤية واستراتيجية وخطط لتنويع مصادر الدخل في العراق وعدم اعتمادها على النفط كمصدر وحيد للدخل. خطط المجلس في هذا الشأن تعنى بإحياء الصناعات الصغيرة والمتوسطة والنظر في توسيع الرقعة الزراعية والاستفادة من امكانات العراق وبيئته في الطاقة النظيفة والخضراء والاهتمام بالمنتجات الوطنية وتطويرها بقصد زيادة صادرات العراق.

جدير بالذكر ان الأستاذ عبدالله الجبوري قد انتهى من اعمال البناء والتأسيس والإعداد لافتتاح فندق "قلب العالم" خلال هذا الشهر، وبداية هذا الافتتاح مبشرة، حيث ستعقد في بغداد القمة العربية ال 34 للملوك والرؤساء العرب في القصر الحكومي في بغداد في 17 مايو 2025، وسيستضيف فندق "قلب العالم" الملوك والرؤساء العرب والوفود المرافقة لهم والمركز الاعلامي الخاص بالقمة.

ننتهز هذه المناسبة في الغرفة العربية اليونانية أن نتقدم بخالص التهاني الى السيد عبدالله الجبوري الرئيس التنفيذي لشركة " أرض المناسك" عضو الغرفة العربية اليونانية على هذه الثقة التي منحت له وهو اهل لها. مبروك أبا قيصر.

2^ο Αραβο-Ελληνικό Ναυτιλιακό Συνέδριο
المؤتمر البحري العربي - اليوناني الثاني
2nd Arab-Hellenic Maritime Conference
Athens, 25 - 26 June 2025

"التعاون بين جيرة البحر"

تحت رعاية:

التصوّر العام:

تُنظّم الغرفة العربية اليونانية "المؤتمر البحري العربي-اليوناني الثاني" في 25 و 26 يونيو/حزيران 2025، في أثينا، اليونان. يأتي هذا الحدث تأسيساً على نجاح المؤتمر البحري الأول الذي عُقد في يوليو/تموز 2023، والذي شهدت محاوره وقطاعاته اهتمام كبير وتميّز بحضور رفيع من المختصّين من الجانبين العربي واليوناني مع مشاركة رسمية عالية.

يلعب التوسّط الإستراتيجي لموقع الدول العربية دوراً رئيسياً في خطوط الملاحة الدولية، وتزداد أهميته لدولنا في امتيازها كمُصدّر رئيسي للطاقة وموارد أخرى، لهذا، تُولي بعض الدول العربية اهتماماً كبيراً في تطوير أساطيلها وتحديث موانئها وخدماتها وما يتصل بمجال الملاحة البحرية، ولعلّ ما أحرزته بعض من هذه الدول من إنجازات تُعدّ تطوراً إيجابياً وفعالاً يُعزّز من مكانتها في كل قطاعات العمل.

اليونان دولة بحرية على مدى التاريخ، وسواحلها الأطول في البحر الأبيض المتوسط، والثالثة على المستوى الأوروبي، أما الملاحة فهي مُترادفة في حضارة اليونان، وكانت دوماً وما زالت مصدر للثروة وفخر لليونانيين. تملك وتسيطر اليونان على أكثر من 5200 باخرة أي ما مجموعه 21% من أسطول الملاحة العالمية، وتُساهم بحوالي 8% في الدخل القومي، وطموحات اليونان مُستمرة ودؤوبة في تعزيز مكانتها وريادتها في الملاحة العالمية وتعمل في الوقت نفسه على تحديث صناعة وبناء السفن وتطوير موانئها والخدمات المُتصلة بذلك، بالإضافة الى ما تُوفّره من فرص الاستثمار في اليونان في هذه المجالات.

أن امتياز الغرفة العربية اليونانية في تمثيل كافّة الاتحادات والغرف التجارية العربية في اليونان أهلها أن تلعب دوراً فعالاً في فتح وتعزيز قنوات التواصل بين رجال الاعمال من اليونان والعالم العربي لتبادل الخبرات واستكشاف إمكانيات التعاون والاستثمار وزيادة التبادل التجاري في كل قطاعات العمل بين اليونان والعالم العربي.

الحضور والمشاركة:

تمتاز فعاليات الغرفة العربية اليونانية بمستوى التنظيم الجيد، وبالمشاركة المُتميّزة من كبار رجال الاعمال والرسميين من العالم العربي واليونان، يُقدّم لجلسات ومداولات هذا المؤتمر كبار التنفيذيين وأصحاب القرار والمؤثرين في الملاحة البحرية ومجالاتها، مع مشاركة بعض كبار المسؤولين المعنّيين من اليونان والعالم العربي.

عدنان وفيق القصار

عندما نقول ان فلان عاش حياة حافلة فإن الامتلاء في هذه الحياة انما يقاس في خير العمل في كل جوانبه ونتائجه. واذا قدّر لنا ان نقيّم انجازات شخص ما بالمقارنة الى سنوات حياته في هذه الارض للدلالة على تأثيره على من هم في محيطه الصغير وخارج بلاده، فإن عدنان القصار سيحظى في هذه الدلالة بسجل حافل ومكانة متميزة.

في مسيرة الرئيس عدنان القصار منذ بدايتها نلمس ايماننا عميقا وتفانيا مخلصا وروح ايجابية على محيطه الصغير لبنان وامتداده ليشمل محيطه الاقليمي العربي. وفي هذا لا يختلف اثنان ان عدنان القصار كان شامخا كأنداده من رعيّل متميّز من رجالات القطاع الخاص العربي. ولا يمكننا اختصار هذا الدور وهذا السجل من الانجازات في هذه المساحة، ولكننا نقف امام محطات كان القصار فيها شامخا.

عاصر عدنان القصار تأسيس اتحاد الغرف العربية، وتولى انشاء مبنى الاتحاد على نفقته الخاصة، ساهم في تأسيس وبدايات إنشاء الكثير من الغرف العربية الاجنبية المشتركة، وكان له دور ملموس وحاضر في استمرار عمل هذه الغرف وتأكيّد مكانتها. ونحن هنا في الغرفة العربية-اليونانية ندين بالكثير الى دوره كأحد رواد هذه المؤسسة، وأول نائب رئيس عربي لهذه الغرفة، ونعتقد جازمين ان دوره ورفاقه الاوائل في غرفتنا كان له اساس متين مكن هذه الغرفة ان تستمر بعملها وفي تأكيّد مكانتها في اليونان كواحدة من اكثر الغرف المشتركة العاملة في اليونان حضورا ونشاطا. لعدنان القصار وجيله من رجال القطاع الخاص الاوائل صادق التقدير والعرفان.

سيكتبون في لبنان الكثير عما قام به عدنان القصار كما كتبوا عن كثير من عمالقة لبنان الذين رفعوا اسم هذا البلد الى افاق عالية. اما على المستوى العربي سيكتب الكثيرون عن دوره في العمل العربي المشترك من منطلق الاعتراف بعروبته و بما قام به في كافة ادواره على مدى سبعة عقود.

رحل عدنان القصار يوم الجمعة الموافق 2 مايو 2025، نسأل الله ان يغشاه برحمته الواسعة، وان يفسح له مكانا في جناته، ويلهم اهله صبر المؤمنين وجزاء الصابرين.

وإِنَّا لِلّٰهِ وَإِنَّا إِلَيْهِ رَاجِعُونَ

رشاد مبجر
الأمين العام

"التعاون بين جيرة البحر"

يبدو ان حرب التعريفات الجمركية الدائرة في الاعلام وعلى وسائل التواصل الاجتماعي ستغيّر كثير من المعادلات في العلاقات الدولية، وقد تدفع الى تغيير موازين القوة . هذه الحرب ان صح لنا القول، امتداد لنهج فرض الهيمنة، لا نستطيع القول لحسن الحظ او لسوئه. ان هذه الحرب قد تعود علينا بالفائدة او الخسارة. ذلك اننا لسنا من الدول التي يتنوع ويلعب انتاجها دوراً كبيراً في التجارة العالمية، ومن ناحية اخرى وفي احسن الاحوال فاننا مستهلكين، مع تحفظ معقول ان هناك دول عربية تسعى الى فك حصار الاستهلاك علينا والخروج بتصوير للصناعة والصادرات وتنوع الدخل. وهناك قصص نجاح نأمل ان تستمر وتمتد الى بقية دولنا العربية، مستفيدين من توسطنا الاستراتيجي ومواردنا البشرية والطبيعية وامتيازنا في تجارة الطاقة وحركة النقل البحري. لعل هذه الحرب حافز للنهوض بشؤوننا.

لم يكن الغرض من هذا التقديم التطرق الى حرب التعريفات الجمركية، بقدر ما كان همنا التقديم حول فعاليتنا الكبيرة "المؤتمر البحري العربي-اليوناني الثاني" الذي ينعقد يومي 25-26 يونيو القادم تحت شعار "التعاون بين جيرة البحر". ولعل البعض لا يدرك ان دولنا كان لها باع طويل في التعاون البحري منذ القدم وكان للعرب موقعا رائدا في هذا. وحتى الى فترة قصيرة كان هذا التعاون قائما على حدود معقولة، ونشير بذلك تجارة اللؤلؤ في دول الخليج العربي. بالطبع هناك تراث كبير في هذا المجال ولكن ليس وقته هنا.

استطاعت اليونان ان تبقي على ريادتها في النقل البحري، وفي هذا نقول ان اليونانيين يعتزوا بدورهم الرائد هذا ويعد آرث يحرسون على الاحتفاظ به وتطويره في كل ما يتصل بالنقل البحري. وبلادنا العربية بموقعها الفريد والاستراتيجي قد بدأت بالفعل من خلال ايضا بعض الدول العربية تأكيد مكانتها في تحديث موانئها وتطوير اساطيلها، والمسألة في الأخير تكاملية وتستند على اساس التعاون المشترك فيما بيننا كعرب والاستفادة من موقعنا لزيادة التجارة الاقليمية بيننا واليونان. ونعتقد ان المجال في هذا الخصوص فيه مصلحة للطرفين العربي واليوناني.

تحظى فعاليتنا في الغرفة العربية اليونانية بحضور موسع ومتميز من معظم الدول العربية واليونان. وبالنظر الى محاور وقطاعات هذا المؤتمر فإن المستوى المتميز هذا من الحضور سنحظى به في هذه الفعالية الكبيرة.

يشمل نشاطنا هذا العام الاعداد الى رحلات عمل الى عدد من الدول العربية، وستكون اول هذه الرحلات في شهر سبتمبر القادم. بعد ذلك لنا لقاء كبير مع الفعالية الرئيسية للغرفة "المنتدى الاقتصادي العربي اليوناني ال 14" في 27 و 28 نوفمبر القادم. أصبح هذا المنتدى تقليد سنوي نحرص عليه وعلى تطويره من خلال ما نقدمه من محاور وقطاعات عمل تعكس اهتمامات الجانب العربي واليوناني.

الغرفة العربية اليونانية للتجارة والتنمية

ΑΡΑΒΟ-ΕΛΛΗΝΙΚΟ ΕΠΙΜΕΛΗΤΗΡΙΟ ΕΜΠΟΡΙΟΥ & ΑΝΑΠΤΥΞΕΩΣ
ARAB-HELLENIC CHAMBER OF COMMERCE & DEVELOPMENT

أهلاً بكم في عضوية الغرفة العربية اليونانية

أربعون عاماً انقضت منذ تأسيس الغرفة العربية اليونانية استطاعت خلالها أن تبرز كواحدة من أكثر الغرف الأجنبية المشتركة في اليونان حضوراً ونشاطاً، وأن تجذب إلى عضويتها كبار الشركات العاملة في اليونان والمئات من الشركات المتوسطة والصغيرة، وأن تسهم بدورها في زيادة التبادل التجاري والتدفقات الإستثمارية بين اليونان والعالم العربي وتعزيز التعاون العربي اليوناني في كافة المجالات.

تتميز فعاليات الغرفة العربية اليونانية بحضور مكثف ومشاركة فعالة من قبل رجال الأعمال في اليونان ونظرائهم من جميع الدول العربية، يعود هذا إلى ما تتناوله هذه الفعاليات من محاور وقطاعات للتداول والنقاش وبما تقوم به الغرفة العربية اليونانية من تنظيم في عقد اللقاءات الثنائية في كافة قطاعات العمل كجزء أساسي من هذه الفعاليات، كل ذلك أسهم في استمرارية الغرفة وتأكيد مكانتها في أوساط الغرف التجارية العاملة في اليونان.

يضاف إلى تميز الغرفة العربية اليونانية تواصلها المستمر مع الشركات الأعضاء وغير الأعضاء واتباع سياسة الباب المفتوح، مما وفر لها قاعدة بيانات وشبكة اتصالات واسعة تستفيد منها بالدرجة الأولى الشركات الأعضاء في الغرفة.

امتيازات العضوية:

- المشاركة في فعاليات الغرفة من منتديات ومؤتمرات
- الترويج المجاني للشركات الأعضاء في مطبوعات الغرفة الدورية
- المشاركة في بعض لقاءات العمل الخاصة
- المشاركة في ورش العمل واللقاءات الثنائية التي تنظمها الغرفة
- لقاءات العمل عبر الإنترنت
- تزويد الشركات الأعضاء بالمعلومات المطلوبة من اليونان

المجالات المشتركة للتعاون العربي اليوناني:

تعد اليونان أقرب الدول الأوروبية مسافة إلى العالم العربي، ولذلك كان التواصل قائماً منذ القدم ونطاق التعاون سهلاً في كثير من المجالات، وفي ظل الظروف الراهنة فإن التجارة مع اليونان لها مزاياها العديدة، فهي قد استطاعت أن تؤسس لنفسها سمعة تجاوزت حدودها في كثير من مجالات العمل، والقطاعات التي تميز اليونان بوجودها منها على سبيل الذكر ما أحرزته من تطور ملموس في الصناعات الغذائية ومواد البناء والطاقة المستدامة بأنواعها والتكنولوجيا، بالإضافة إلى سجل متميز لشركات الهندسة والإنشاءات اليونانية في انجاز العديد من المشاريع في العالم العربي، يضاف إلى ذلك التفوق التقليدي لليونان وريادتها في قطاعي الملاحة وصناعة الموانئ،

ولذلك استطاعت اليونان بجودة ما تنتجه أن تتنافس في كثير من الأسواق العالمية، يدل ذلك الزيادة المستمرة في ميزان صادراتها إلى الكثير من دول العالم . إن فرص الاستثمار رحبة وفي أكثر من مجال، ويتفرد القطاع السياحي ببنية تحتية متكاملة تؤهله لأن يكون أكثر القطاعات الجاذبة للإستثمارات الخارجية، واليونان كما نعلم من أكثر الوجهات السياحية في العام، وتجذب الملايين من السواح بمختلف اهتماماتهم، منها التعرف على حضارتها العريقة ومنها التمتع بما تمتاز به من جمال الطبيعة في قراها وجزرها ومدنها.

إن الخدمات التي نقدمها للشركات الأعضاء والتواصل المستمر معهم هو ما يميزنا ويضيف إلى قدرتنا في احداث الفرق المطلوب كعامل إيجابي في تعزيز التواصل بين القطاع الخاص في اليونان ونظيره في العالم العربي.
