FOREWORD

Harris Geronikolas
President

Rashad Mabger
Secretary General

Construction, like knowledge, is a continuous process...

Construction is one of the blessed human endeavors. This is why, for the second consecutive year, we have opted to address the sectors of construction and energy in our flagship event, the **“14th Arab-Hellenic Economic Forum.”** These two sectors, along with their many related services and industrial fields, enjoy a significant and strategic importance in many countries and play a central role in driving economic growth and raising living standards.

Some Arab countries are going through a transitional phase toward stability and reconstruction, after the wars and destruction they have endured since what is known as the “Arab Spring.” We honestly hope that these countries will succeed in their efforts, especially as they receive support from the Gulf Arab countries in financing reconstruction projects. The European Union, the United States, and international financial institutions have a special duty in funding the reconstruction process, as this would reduce migration flows, create stable societies and environment in their peripheries, and finally assist in promoting investments and trade exchanges with these countries. As far as the Arabs are concerned, success in such efforts would boost their status, regionally and internationally, and pave the way for utilising their resources and encourage trade and investment relations with them, for the obvious reason that they enjoy geographical proximity.

Apart from reconstruction being an urgent issue, addressing climate change is more pressing and requires serious efforts and commitment, especially from the industrial countries in Europe, Asia, and the United States, as they are primarily responsible for environmental degradation. Despite the efforts of the “COP” conferences, compliance with the resolutions of these conferences remains below the required level. Concerns over rising temperatures and the increasing frequency of natural disasters continue to grow, along with water scarcity and desertification that has started to appear even in some European countries. It is high time that we collectively and individually address climate change on multiple levels and scales and we hope that this Forum will provide the platform for meaningful discussions around this issue.

As always, in our event we also look forward to dynamic exchange and fruitful business meetings among participants. We have counted more than 190 Arab businessmen from 17 Arab countries participating, along with more than 120 Greek businessmen representing more than 70 major Greek companies in the construction and energy sectors.

In conclusion, we, at the Arab-Hellenic Chamber, would like to reaffirm our commitment towards opening channels of communication and supporting small and medium-sized enterprises in the Arab world and Greece to build up successful business relations which will contribute towards enhancing Greek-Arab relations in all business domains.

We wish you all a peaceful holiday season and a Happy New Year.

The Arab-Hellenic Chamber is organizing its main event, the 14th Arab-Hellenic Economic Forum, at the Divani Caravel Hotel, Athens, Greece, on November 27-28, 2025.

The Scope

This forum will focus on the construction and energy sectors, along with their related fields. The importance of these two sectors lies in their strategic and economic significance, as they are fundamental for enhancing cooperation and partnership between Greece and the Arab world.

The forum will highlight the mutual advantages both sides enjoy in terms of geographical proximity and strategic location, as well as the promising opportunities for collaboration and partnership. Greece's expertise in construction and infrastructure projects in the Arab world, along with its advancements in energy and building materials, adds to the potential for expanding cooperation with the Arab region. This collaboration will be driven by resources and ambitious visions that can foster innovation and growth between both sides.

The forum will be conducted in Arabic and Greek, with simultaneous translation provided. English may also be used during the sessions and roundtable discussions.

ARAB-HELLENIC CHAMBER OF COMMERCE & DEVELOPMENT

The Chamber

The Arab-Hellenic Chamber of Commerce & Development is a non-profit organization established by Greek Law No. 990, on December 1st, 1979, followed by Presidential Decree No. 421 of April 1981, and operates under the umbrella of the Ministry of Economy, Development and Tourism, in coordination with the Union of Arab Chambers, in cooperation with the Council of Arab Ambassadors accredited to Greece and with all the Arab Federations and Chambers of Commerce. Its Head Office is located in Athens, Greece. The scope of its business activities covers Greece and the whole of the Arab world.

Objective

The objective of the Chamber is to develop and promote economic and trade relations between Greeks and Arabs in all business sectors, mainly Construction, Industry, Agriculture, Energy, Technology, Tourism and Education.

Primary Goals

- The Arab-Hellenic Chamber works towards developing new Joint Ventures and partnerships between the two sides and encouraging the flow of investments between Greece and the Arab World.
- It also works alongside Federations and Chambers of Commerce towards elevating the trade balance between Greeks and Arabs.
- Based on its contacts, information database and networking expertise, the Chamber works towards assisting in bringing the Greek and Arab business communities together, through exchange of information, experience and know-how.

Activities

- Organizing well-planned B2B meetings between Greek and Arab businessmen, activities which are complimented with the publication of informative brochures for each delegation involved.
- Holding and co-organizing business events, Forums, Conferences, Fairs, Exhibitions and Workshops in Greece and in the Arab world.

Publishing trade bulletins, reports, statistical data and related economic and trade activities between Greece and the Arab world.

- Providing update information to Greek and Arab businesses on the existing business opportunities from both sides through the publication of regular bulletins.
- Hosting and participating in related cultural activities and cross-cultural workshops.

Services

- Publishing periodical reports and bulletins in English, Greek and Arabic on the latest business opportunities and news.
- Attending to the members' requests for updated data, contacts and information about conducting business in Greece and the Arab world.
- Checking and reviewing trade certificates, export documentation to the Arab world as well as undertaking the translation of related trade documents.

The Arab-Hellenic Chamber of Commerce and Development is proud of its long-standing relationship with its member-companies and it shall continue to present activities, events and services of the highest standards and to be supportive of the business communities in the Arab world and Greece.

Member of Qatar Chamber
1st Vice President of Arab-Hellenic Chamber*

Qatar Chamber

Established in 1963, Qatar Chamber of Commerce & Industry (Qatar Chamber) is considered one of the most active and influential chambers regionally and internationally.

As a leading non-profit institution, Qatar Chamber plays a pivotal role in driving the country's economic development by protecting the interests of the commercial, industrial, and agricultural sectors. The Chamber's mission is to create a productive and investment-friendly environment, contributing to the growth of a diverse and sustainable economy in Qatar.

Qatar Chamber plays an essential role in facilitating trade through the issuance of certificates of origin and the promotion of investment opportunities. It contributes to consolidating Qatar's position as a leading international hub for business and trade by strengthening strategic partnerships, hosting trade delegations, specialized conferences, and quality exhibitions.

In line with Qatar National Vision 2030, the Chamber focuses its efforts on supporting the growth of a knowledge-based economy, emphasizing the enhancement of the competitiveness of Qatari companies by providing a platform that enables them to thrive both locally and globally.

Whether through fostering trade relations or supporting sustainable investment, Qatar Chamber remains at the forefront in taking part shaping the business landscape in the country, reinforcing its position as a dynamic and competitive player on the global economic stage.

As part of its future vision, Qatar Chamber was among the first institutions to adopt digital transformation, capitalizing on the technological revolution in Qatar. It implemented a set of digital initiatives and strategies that contributed to the development of its technological infrastructure, enabling the provision of advanced electronic services that meet demands and support the business environment. The Chamber also places great importance on developing

professional skills and competencies by organizing various training courses and workshops that serve different sectors.

The Chamber also provides legal and technical consultations to its members and contributes to the facilitation of commercial dispute resolution through the Qatar International Center for Conciliation and Arbitration (QICCA).

The International Chamber of Commerce – Qatar represents the Qatari business community in regional and international forums in areas including trade, investment, and international relations. Through its partnership with the International Chamber of Commerce, headquartered in Paris, it seeks to contribute to the facilitation of global trade.

Qatar Chamber in 2024

The year 2024 witnessed a wide range of activities, achievements, and initiatives across various fields, all aimed at strengthening the national economy and advancing the country's progress toward achieving Qatar National Vision 2030. Throughout the year, the Chamber continued its role in supporting and enhancing the business environment in the country, emphasizing its efforts to represent and advocate for the interests of the private sector, promote the state's investment climate, and reinforce Qatar's position as a global center for investment, business, and trade.

These achievements align with Qatar's commitment to sustainable development, particularly following the launch of the Third National Development Strategy (2024–2030), which places strong emphasis on sustainable economic growth.

In 2024, the Chamber reduced its service fees in accordance with Cabinet Decision No. 19 of 2024, which amended several fees for services provided by the Qatar Chamber of Commerce and Industry. This step aimed to ease financial burdens on Qatari companies, facilitate business operations, and encourage investment.

The Chamber further strengthened its cooperation with relevant national entities to address the issues and challenges facing the private sector and to develop appropriate solutions. In this context, it hosted several open dialogues with officials from various government bodies.

Throughout the year, the Chamber launched several strategic initiatives at the GCC level, including the “Made in the Gulf” initiative, which aims to strengthen economic integration and support industrial development. During the consultative meeting of GCC Ministers of Commerce and Industry with the heads of unions and chambers of commerce, the Chamber proposed conducting a study to assess the impact of imposing a carbon tax on GCC economies.

In 2024, several notable appointments further strengthened Qatar’s regional and international representation. QC Chairman H.E. Sheikh Khalifa bin Jassim Al Thani was appointed First Vice President of the Arab German Chamber of Commerce and Industry (Ghorfa). QC Board Member and President of the Qatar Association for Freight Forwarding and Logistics (QAFL), Eng. Ali bin Abdullatif Al Misned, was elected Vice Chair of the Region Africa and Middle East (RAME) at the International Federation of Freight Forwarders Associations (FIATA). Meanwhile, QC Board Member and President of the Qatari Businesswomen Forum, Ibtihaj Al-Ahmadani, was appointed a member of the Arab Women Investors Union’s Board of Trustees and as adviser to its Supreme Trade Committee. Former QC General Manager, Saleh bin Hamad Al Sharqi, was also appointed Secretary-General of the Federation of Chambers of the Gulf Cooperation Council (FGCCC).

The Chamber also launched the Qatar Association for Freight Forwarding and Logistics (QAFL), which now represents the freight forwarding sector in Qatar. QAFL serves as the official representative of FIATA in the state and acts as an important link between companies and relevant authorities. Sectoral committees remained active throughout the year, engaging business owners and company representatives to identify sector-specific challenges and propose suitable solutions. In parallel, the Chamber enhanced its digital infrastructure to modernize and streamline its services for members and affiliated businesses.

Additionally, the Chamber continued preparations for its new headquarters at Lusail Boulevard.

During 2024, the Chamber had issued a total of 154,778 transactions (electronic and non-electronic), including 50,262 certificates of origin—49,405 issued electronically and 857 on paper. It also issued 13 ATA carnets and 10 TIR carnets.

The Chamber organised and participated in more than 280 events and hosted around 80 foreign trade delegation meetings, including four meetings with heads of state and several with government leaders, ministers, and representatives of international bodies and chambers of commerce. It also participated in over 44 international events, organised or joined more than 26 forums and conferences, held 13 business meetings, and signed 15 Memoranda of Understanding with various institutions and counterpart chambers.

Sectoral committees held 27 meetings to discuss key issues across different sectors, continuing their efforts in collaboration with relevant entities to address and resolve challenges.

In terms of training, the Chamber organised numerous courses and workshops covering topics such as artificial intelligence, entrepreneurship, and learning disabilities in 28 schools. It also offered training programs for customs brokers, food handlers (in cooperation with the Ministry of Health), and employees of the Chamber.

In 2024, the Chamber sponsored and participated in several major exhibitions. ICC Qatar also hosted multiple events, including the Qatar Digital Trust Roadshow 2024 in cooperation with the British Standards Institution (BSI).

Regarding arbitration, the Qatar International Centre for Conciliation and Arbitration achieved significant milestones during the year. It handled 66 arbitration cases and 4 conciliation requests, successfully facilitating 3 settlements, issued 24 arbitral awards, and organised the fifth edition of the World Conference on International Arbitration, which attracted leading international arbitrators and legal experts.

Qatar-Greece Relations

Qatar and Greece enjoy steadily developing commercial relations supported by strong diplomatic ties. The two countries signed many agreements and MOUs in many fields. Bilateral trade between the two countries reached \$75 million in 2024.

Several sectors offer strong opportunities for cooperation and investment. Energy remains a central pillar, given Qatar’s leadership in LNG and Greece’s growing energy infrastructure needs. Tourism, hospitality, real estate, and transport are also areas of mutual interest, with Greece’s maritime expertise complementing Qatar’s ambitions to become a major logistics hub. Additionally, agriculture, food security, and manufacturing represent important domains where both sides can enhance commercial exchange and partnerships.

Economic and trade relations have witnessed development since the establishment of the Qatar-Greece Business Council in 2015, to be a platform for dialogue between business leaders and decision-makers in government agencies and bodies concerned with promoting bilateral relations between the two countries. The Qatari-Greek Business Meeting in the Construction and Building Sector was held in Doha in April 2019, attended by the Chairman of the Greece-Qatar Business Council Panagiotis Mihalos, and several Qatari businessmen, and representatives of 25 Greek companies specializing in construction and construction.

First Vice President of Qatar Chamber Mohammed bin Ahmed bin Twar Al Kuwari said during the meeting that the number of Greek companies operating in the State of Qatar is estimated at 64 companies; including eight fully owned Greek companies, and 56 Greek companies with Qatari partnership. He noted that the Qatar Chamber supports all efforts that contribute to strengthening the partnership between Qatari companies and their counterparts in Greece in all economic and commercial sectors, which would benefit the economies of the two countries.

اتحاد الغرف التجارية العراقية

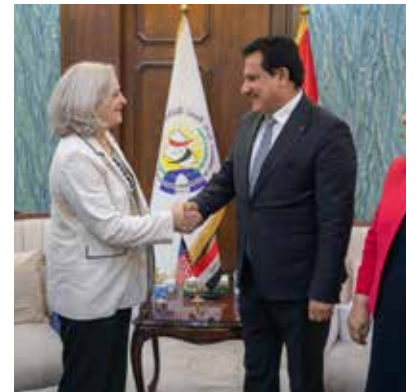

Federation of Iraq Chambers of Commerce

The Federation of Iraqi Chambers of Commerce is a leading professional economic organization established under Law No. (43) of 1989. Its mission is to organize and promote private economic and commercial activities while supporting their role in economic development. It is one of the largest economic organizations in Iraq, overseeing 18 commercial chambers across all provinces, including three chambers in the Kurdistan Region (Erbil, Sulaymaniyah, and Dohuk).

Features of the Federation

- It enjoys legal personality and financial and administrative independence.
- It is managed by the Federation Council, which includes the presidents of the chambers of commerce.
- The Federation is represented by an elected president chosen by its council members.

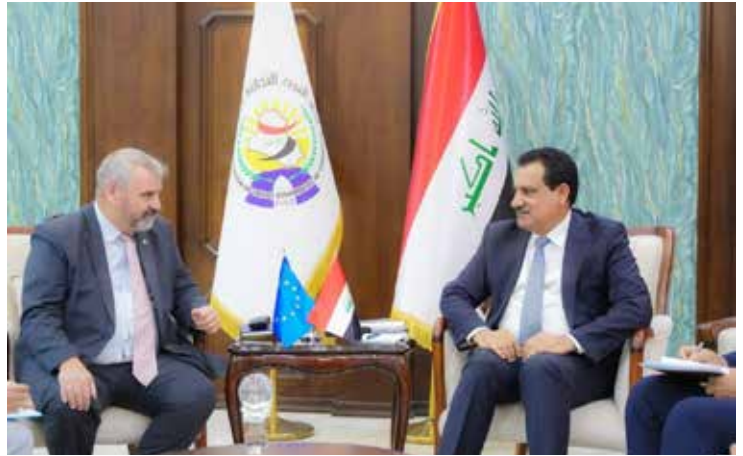

اتحاد الغرف التجارية العراقية

Federation of Iraq Chambers of Commerce

Key Achievements of the Federation

- International Relations: Signed agreements with global chambers and participated in joint chambers.
- Economic Events: Organized conferences and forums to promote trade and investment.
- Trade Exhibitions: Hosted Iraqi pavilions and supported local and international trade fair participation.
- Private Sector Support: Offered programs and consultations for entrepreneurs and SMEs.
- Chamber Restructuring: Improved administrative performance and collaboration among chambers.
- Policy Contributions: Helped draft economic laws and provided recommendations to improve business conditions.
- Arab Unity: Promoted Arab economic integration through joint initiatives.
- Global Partnerships: Collaborated with international organizations and launched training programs.
- Crisis Management: Supported traders during crises like COVID-19.
- Kurdistan Relations: Strengthened trade ties between the Kurdistan Region and other provinces

Federation Goals

1. Fostering cooperation with Arab commercial and industrial chambers to promote trade exchanges and contribute to Arab economic unity.
2. Building relationships with foreign chambers and associations while participating in Arab-foreign joint chambers.
3. Participating in local and international exhibitions and trade events in coordination with relevant authorities.
4. Contributing to forums, conferences, and seminars focused on developing and promoting trade.

At CCC, we don't just build; we create legacies.

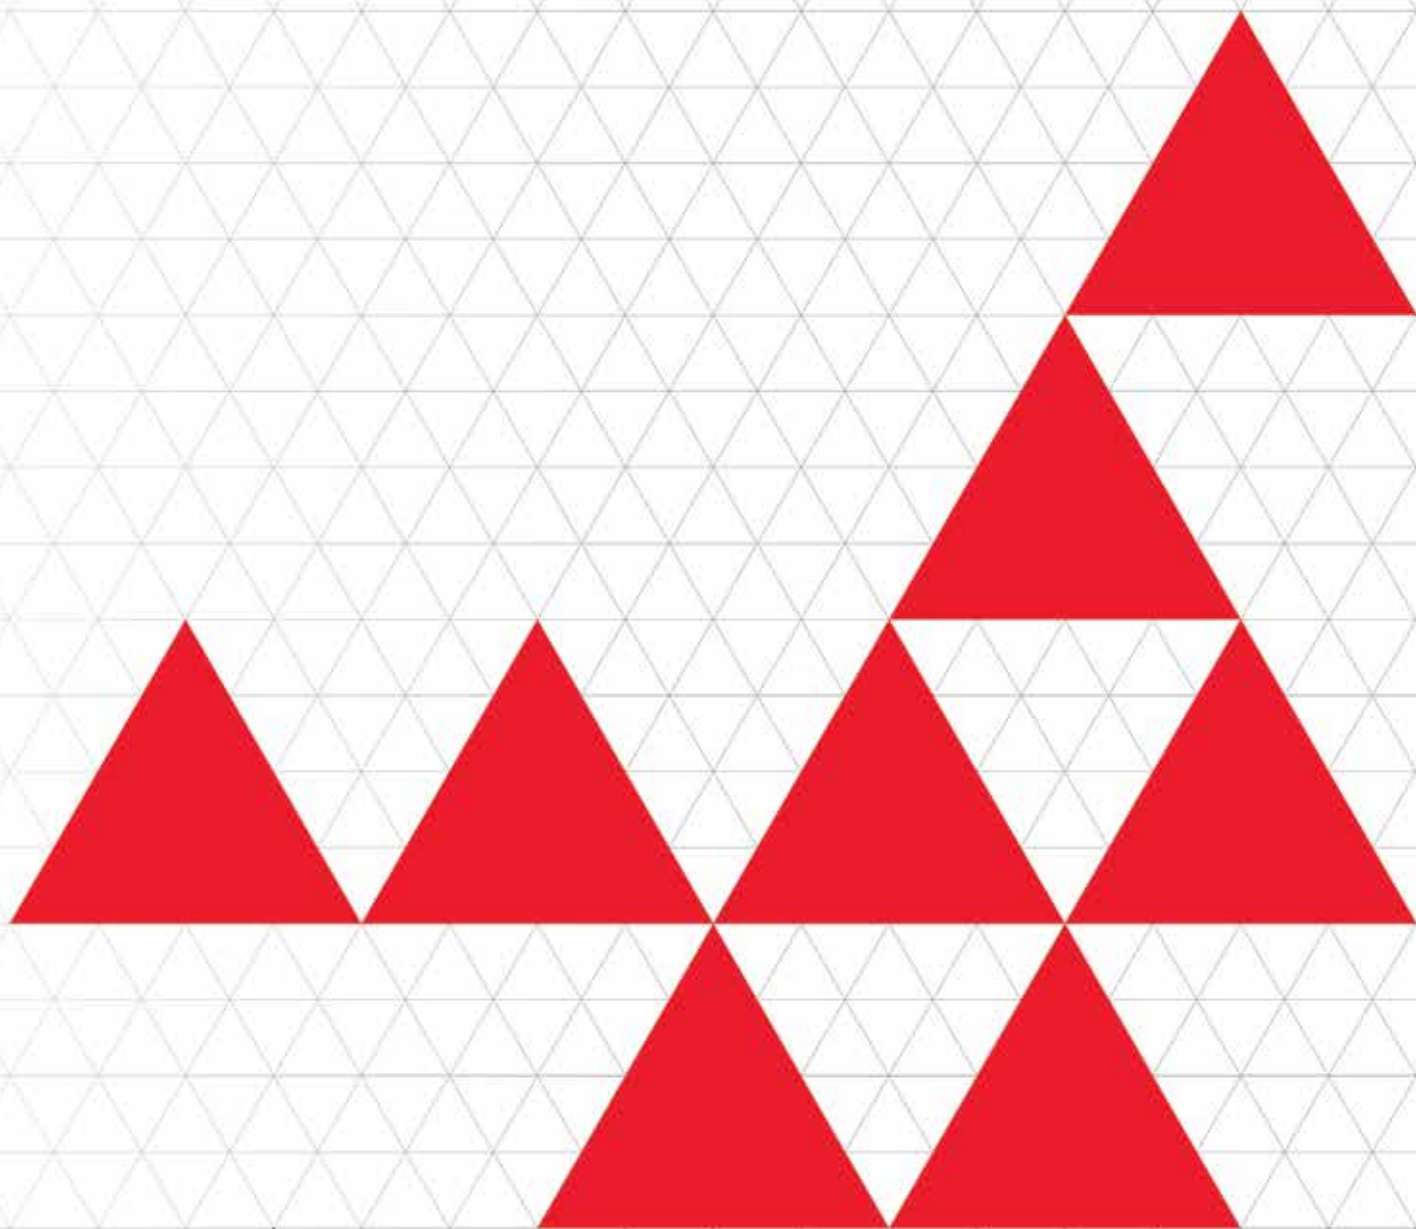

Our portfolio features projects
of every scale, each made with
dedication and accuracy.

For more than 70 years, we have been setting the standard in precision, capabilities, and construction power.

As our team grew, we found ourselves involved in great projects across all five continents, even in the most remote areas.

From complex industrial plants to monumental infrastructure and architectural marvels, our projects are more than constructions; they are the landmarks that define the area they are built in. They serve as the link that connects our time with tomorrow's vision. They are tokens of excellence, materializing a sustainable future.

Beyond this, we see ourselves as more than constructors; we are connectors, fostering collaboration, empowering communities, consistently dedicated to their advancement.

**Building Legacies,
Honoring Values.**

Building Excellence Worldwide

ZULUF ONSHORE OIL PROJECT,
GENERAL CONTRACT PACKAGE GC1B
SAUDI ARABIA

Market Focus

Energy & Chemicals

With the Energy & Chemicals sectors posing their own individual challenges, we've developed a deep understanding of these environments and how to make sure we balance industrial progress with environmental stewardship.

Renewables, Power & Water

We could be holding the secret to beating rising energy costs and climate change.

Pipelines

CCC delivers critical pipeline infrastructure that keeps energy and water flowing safely, efficiently and across vast distances. From design to execution, we connect resources to demand with precision and reliability.

Buildings

Our buildings aren't just structures; they are landmarks that showcase our commitment to excellence and innovation. We set high standards and constantly push ourselves to achieve new heights.

Transportation

We do our part in keeping the world moving, by constructing some of the world's finest transportation projects such as airports, mass transit, roads, highways, bridges, ports and marine works.

**BB Energy supports
the global energy system
by responsibly trading
traditional, transitional
and renewable energy**

BB Energy

BB Energy is among the world's leading independent energy trading companies, with over 60 years' experience in energy trading, operations, chartering, logistics, storage, and retail. Our diversified portfolio cuts across many segments of the energy industry—from trading crude oil and petroleum products to natural gas and renewables. In the last financial year, BBE traded in excess of 33 million metric tonnes (MT) of crude oil, petroleum products and liquid gases.

We support the global energy system by responsibly trading traditional, transitional and renewable energy. By doing so we aim to empower the people, communities and businesses that need access to energy. We believe access to energy and responsible growth go hand in hand and our capabilities help progress the world's energy transition, while providing the vital resources needed today.

People and Culture

Our unique entrepreneurial culture, backed by our global reach, allows us to support our partners and customers across the energy value chain, earning their trust through our integrity and reliability.

With global operations anchored out of six key trading hubs in London, Dubai, Singapore, Houston, Brussels and Geneva, BB Energy has a global network of over 400 employees in a dozen offices across five continents.

Our growing team is a dynamic mix of seasoned professionals and newer recruits from a range of backgrounds, including other industries and recent graduates. The Group's high employee retention rate has allowed us to develop extensive experience and nurture long term relationships with our trading and financial partners built on respect and trust.

Strategy and Growth

Growth and diversification remain cornerstones of BB Energy's business strategy as we support an energy ecosystem capable of trading and supplying traditional, transitional and renewable energy to the businesses and communities that need it most.

Geographic expansion is central to our strategy, where we leverage our extensive global network to thrive in high-potential markets. By establishing a presence in key regions, we not only broaden our reach but also deepen our understanding of local energy needs and market dynamics. This allows us to tailor our offerings to meet the diverse demands of communities worldwide, positioning ourselves as trusted partners in their energy journey.

In parallel, BB Energy pursues product diversification, recognising the evolving nature of energy markets and the increasing demand for cleaner alternatives. By expanding our product portfolio to include renewable

energy sources, transitional fuels, and emerging technologies, we position ourselves to capture the opportunities created by the energy transition, driving innovation and sustainability across the value chain.

Strategic acquisitions and investments also play a pivotal role in our growth strategy, enabling us to enhance our capabilities, expand our market presence, and capture synergies. Through targeted investments in midstream and downstream assets, we strengthen our position as a leading player in the global energy trading landscape while creating value for our stakeholders.

At the heart of our approach lies a belief that access to energy drives responsible growth and social development. By balancing the long-term goals of sustainability with the immediate needs of communities, we strive to create a more equitable and resilient energy future.

Trading

Our trading business primarily focuses on crude oil and its derivatives, as well as transition fuels such as LPG and other specialised products.

Our strategically located trading offices in London, Dubai, Singapore, Houston, Geneva, and Brussels serve national oil organisations, major oil corporations, independent trading companies, and refineries around the world.

The Group's goal is to maintain a leading position in key markets and continue global growth. The US and Arabian Gulf remain major sources of supply, while the Mediterranean, including North African countries, continues to be a significant area for deliveries.

Whether through spot purchases or term contracts, we deliver the right energy products to the right customers reliably and efficiently.

Product Diversification

From our historical portfolio of crude oil and petroleum products, we are now covering all major components of the barrel and have been trading LPG and LNG in the last few years. Our downstream retail business now operates across Turkey, Rwanda and Morocco and we have investments in downstream energy companies in Bangladesh and Pakistan.

We have increased our portfolio of crude oil by trading different qualities. We have also expanded our presence in Ultra Low Sulphur Diesel (ULSD) and started gasoline blending and trading in North West Europe. We are also expanding our downstream footprint in LPG. This will create significant synergies and enhanced opportunities for LPG and LNG trading.

To meet liquid gas demand, we have increased our access to a fleet of LPG time-charter ships and now operate three VLGCs in long-distance trade as well as a fleet of smaller LPG ships.

Renewable Energy

Our purpose is energising growth by responsibly delivering traditional, transitional and renewable energy to the people, communities and businesses that need it most. In the context of the energy transition, our Renewable Energy Division is central to this mission.

BB Energy's Renewable Energy Division was established in 2020 to invest in renewable energy opportunities such as solar generation, battery storage, EV charging infrastructure and carbon emission reduction projects.

Since BB Energy acquired Solarcentury Africa in March 2021 it has become a key part of BB Energy's renewable ambition and we now have over 500 MW of solar projects in the pipeline.

Solarcentury Africa is developing a mix of behind the meter solar plants, which will help to directly reduce the carbon emissions of private customers and merchant plants, which generate power that can be traded on the

electricity grid, through our membership of the Southern African Power Pool.

Carbon credit creation and trading is another important pillar of our renewable offer. We finance and manage environmental activities which generate carbon credits while our carbon product trading team creates value by trading the credits created across both the mandatory and voluntary carbon markets.

Biofuels are also becoming more important to the world's energy needs and BB Energy now trades consignments of biofuels such as Used Cooking Oil Methyl Ester. In light of the projected growth of the biofuel market BB Energy's UK, Belgium and Asian offices have now secured their International Sustainability and Carbon Certification (ISCC), a voluntary scheme that is applicable to the bioeconomy and circular economy for bio-based products.

Archirodon is a global EPC contracting group with over six decades of experience delivering critical and complex projects across the Middle East, North Africa, Europe, and the Caspian region and Central Asia.

Established in 1959, the company quickly rose to prominence through milestone port projects such as the Benghazi (1961) and Beirut (1962) ports, laying the foundation for its strong and enduring presence in the Arab world.

Throughout the 1960s and 1970s, Archirodon played a defining role in shaping the region's marine landscape, constructing major seaports including Jeddah and Dammam in Saudi Arabia, and essential port infrastructure across the United Arab Emirates and Oman. These early achievements positioned the company as a trusted partner for technically demanding marine projects.

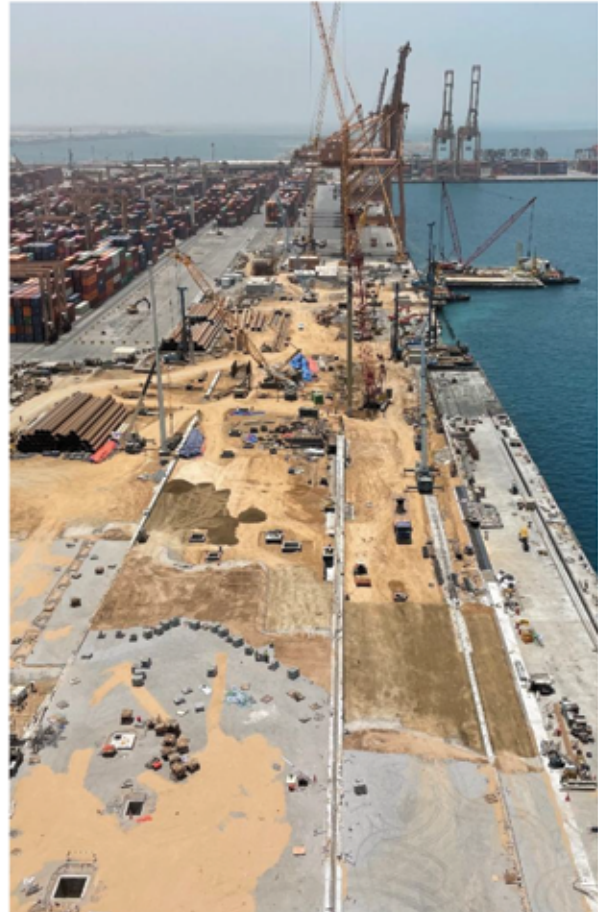

By the 1980s, Archirodon evolved into a multifaceted EPC general contractor, extending its expertise into bridges, railroads, highways and industrial facilities.

From the mid-1990s onward, the company expanded further into the Oil & Gas, Power, and Water sectors, delivering large-scale projects such as the Shoaiba Combined Cycle Power Plant and the Ras Al Khair Desalination Plant—one of the world's largest.

Today, Archirodon stands as an integrated EPC enterprise, with a strong in-house engineering capability, a fleet of owned land and marine equipment, experienced human resources, delivering successfully 400+ complex EPC projects worldwide.

Archirodon operates through its long-standing offices in: Saudi Arabia, UAE, Qatar, Oman, Kuwait, Bahrain, Egypt, Morocco, Greece, Cyprus, Kazakhstan, the Netherlands, Switzerland, and the USA, and through its project sites in: Saudi Arabia, UAE, Qatar, Oman, Kuwait, Bahrain, Egypt, Morocco, Greece, Cyprus and Kazakhstan.

This strategic footprint enables the company to respond quickly, mobilize effectively, and deliver integrated solutions in many geographies.

Anchored in its core value of ēthos, Archirodon prioritizes integrity, safety, sustainability, and innovation. With a legacy of shaping ports, power systems, industrial assets, and national infrastructure, the company continues to deliver future-ready solutions that support regional growth and create lasting value.

GEORGE ALEXANDER GROUP OF COMPANIES

A group with dynamic presence

George Alexander has been active in the field of wild animals and birds since 1985. Dr Alexander is quite successfully involved, both in Greece and abroad, mainly in trading activities as well as in the provision of consultancy services in the field of his expertise having created an extended network of associates and always aiming to new forms of cooperation always characterised by the prestige and consistency of the Alexander Group of Companies.

In 2005 the Group GEORGE ALEXANDER established KITHARON PLC. It is a prototype enterprise involved in the slaughter, standard packing and marketing of animal and poultry meat.

G.A. was established in 2002 and registered in Portugal. Its scope of activities is the production and marketing of biologically produced veterinarian medicines.

The company was established in 2004 with the trading activity as its main objective. The company markets a full range of cosmetics products made of natural ingredients and leather products of wild animals' skins (deer, roebuck, ostrich, crocodile, snake, boar).

Construction company based in Alexandria, Egypt. The company was established in 2015.

A Real Estate, Construction and Tourism company based in Greece.

Modern Company for Drugs Industries

**An Iraqi national pharmaceutical factory registered in the Iraqi
Companies Registration Department since 2005
and has obtained the highest manufacturing rank from MOH.**

IRAQ - BAGHDAD

ONE DROP CLOSER TO THE FUTURE

The Motor Oil Group, with 75% exports to over 75 countries, is implementing the largest energy transition plan in SE Europe.

With investments that reach a total of €4 billion in renewable energy sources, e-mobility, the circular economy, and alternative-renewable fuels, it supports the economy and creates thousands of new jobs.

Turning Land and Buildings into *Lasting Opportunity*

At City Dynamics, we see potential where others see vacant spaces. Our mission is simple: to unlock value through intelligent, forward-focused real estate development across Greece's most promising markets.

Focusing on Athens' southern suburbs and emerging coastal destinations of Greek islands and Continental Greece, we identify high-growth areas where lifestyle demand meets investment potential. Every project we undertake combines strategic land selection, bold design, and disciplined execution — creating assets that sell fast and hold enduring value.

We're not just builders. We're opportunity creators.

With deep market insight and local expertise, we transform land and buildings into thriving communities and high-performing investments.

Building the Future - *Smart, Sustainable, Ethical*

Founded in Athens in 2021, City Dynamics has quickly become one of Greece's most versatile and forward-thinking real estate developers. Guided by our vision (Orama) of a greener, smarter city, we operate with clarity, focus, and integrity at every stage — from land acquisition to delivery. Our portfolio spans residential, commercial, and mixed-use developments — from prime coastal properties to strategic urban renovations — each designed for long-term appreciation and lasting impact.

City Dynamics also provides investment-ready land — including solar parks and premium development sites — offering full due diligence, infrastructure, and legal readiness.

IMAR ENGINEERING CONSULTANTS AND CLIMATE SOLUTIONS :

SILVER SPONSOR AT THE 14TH ARAB-GREEK ECONOMIC FORUM

For over 30 years, Imar Engineering Consultants has achieved remarkable milestones in engineering consulting, urban planning, and development, adopting sustainability principles by delivering integrated solutions that balance economic growth and environmental preservation. Adopting a holistic approach, Imar focuses on optimizing resource efficiency, reducing energy and water consumption, and minimizing carbon emissions, in alignment with Saudi Arabia's Vision 2030 and global sustainable development goals. Among its key achievements, Imar implements green building standards and applies circular economy principles through resource reuse and waste reduction. The company also leads the scientific and technical coalition for the Saudi initiative to plant 10 billion trees, one of the largest environmental transformation projects in the Kingdom.

TO EXPAND ITS IMPACT IN ENVIRONMENTAL AND CLIMATE SOLUTIONS

Imar established Climate Solutions, a dedicated arm addressing climate change challenges and supporting the transition to a low-carbon economy. The division specializes in environmental studies, green economy, carbon footprint assessment, carbon certification, and leverages advanced technologies such as AI, geospatial data, and remote sensing to develop effective sustainability strategies.

THIS YEAR, IMAR AND CLIMATE SOLUTIONS HAVE IMPLEMENTED SEVERAL KEY PROJECTS, INCLUDING:

- Supervision of Green Suburbs in collaboration with the Ministry of Municipal, Rural Affairs, and Housing, enhancing the sustainability of urban greenery.
- Development of the Historical Prophetic Migration Tourism Route between Mecca and Medina, spanning 470 km and including accommodations, event centers, transportation facilities, and infrastructure.
- Consulting Services Project for the Forest Management and Sustainable Development Initiative to support the planting of 10 million trees, alongside developing forest management policies and environmental monitoring maps.
- Consultancy services project for the Saudi Coffee Company, one of the Public Investment Fund (PIF) companies, aimed at issuing carbon certificates for one million coffee trees by 2026.

Through these initiatives, Imar Engineering Consultants and Climate Solutions reinforce their commitment to national development objectives and strengthen Saudi Arabia's position as a regional leader in sustainability and the green economy.

Since 1986,

WEISS HELLAS - INTERNA S.A. has specialized in the design and production of innovative metal ceiling systems, specialized ceiling constructions, and high-specification lighting fixtures. **With nearly 40 years of experience**, the company has consistently delivered solutions that meet the highest standards of quality, safety, and aesthetics, combining technological innovation, architectural precision, and long-term expertise. **All our products are manufactured in compliance with strict international quality and safety regulations** and carry major certifications such as **CE, WHEEL MARK: MED-B - MED-D, and ISO 9001:2015**. Today, our products are exported to **Europe, the Arab Emirates, the United States, and Asia**, offering custom-engineered solutions that combine technical precision, design flexibility, and lasting performance.

SPECIAL METAL CONSTRUCTIONS

The company provides specialized metal constructions for **architectural or technical applications** according to client specifications.

SUSPENDED CEILINGS

WEISS HELLAS suspended ceilings are manufactured with precision, meeting the highest demands for quality, durability, and aesthetics. **Each ceiling can be produced in any required dimensions** and finished in a wide range of RAL-NCS colors, aluminum mirror, or stainless steel, fully customized to meet the client's specifications. In addition, the company undertakes custom suspended ceiling projects **with specific design or technical requirements.**

Products:

Panel Strip Ceilings
Panel Ceilings B15
Ceiling Tiles
Open Cell Ceilings
Ceiling Beams & Domes
Honeycomb Panels
3D Tiles

LIGHT FIXTURES

WEISS HELLAS light fixtures are suitable for installation in any type of suspended ceiling, as well as for direct ceiling mounting, creating a new dimension in lighting design.

Products:

Fluorescent Light Fittings - Spotlights - LED Profiles

HPL CUBICLE PARTITIONS

Modern HPL cubicle partitions are produced to combine functionality with **high design standards**, for WC areas.

Who we are

DESFA S.A., established in 2007, owns and manages the Greek National Natural Gas System consisted of 1,466 km High Pressure pipelines and the LNG Terminal in the islet of Revithoussa.

Leveraging on extensive know how and rich experience DESFA provides highly specialized services over the full span of the gas value chain, based on international standards and specifications.

Our service offerings

Operations & Maintenance

- O&M services to medium and low-pressure systems
- O&M services to LNG & CNG facilities
- Services of cathodic protection/lightning protection

Engineering

- Project management & control services
- Basic & Analytical Engineering
- Performance optimization
- Services to EPCs - Provision of specific support
- Consultancy in compliance with contractual specifications

Consulting & Training

- Consulting services on Energy Transition, including Carbon Capture & Storage and Hydrogen Readiness, Regulation as well as on OGMP's measurement-based reporting
- Trainings - Design & Delivery

Local and international customers have already trusted us, and we are already:

- Providing O&M services to one of the world's largest capacity LNG storage and regasification green field project in Kuwait
- Operating and maintaining an On-Shore High Pressure Pipeline of 549 km that crosses northern Greece
- Providing engineering services for the Construction of a strategic importance High Pressure Pipeline in the country of North Macedonia
- Providing Project Management and highly specialized services to the 2nd biggest LNG Terminal in Greece

MOVING THE WORLD, TOGETHER.

The 95th National Day of the Kingdom of Saudi Arabia

On September 23rd, the Ambassador of the Kingdom of Saudi Arabia in Athens, H.E. Ali Abdulrahman Bin Yousef, commemorated his country's 95th National Day at the Four Seasons Astir Palace Hotel Athens, under the slogan *Our Pride is in Our Nature*. It was a majestic evening showcasing the Saudi cultural heritage and achievements- attributes that have positioned the country at the forefront, both regionally and globally. As H.E. the Ambassador remarked in his speech, this day proudly recalls the Saudi nation's journey: from the founding of the First Saudi State in 1727, through the unification of the Kingdom in 1932, and now the path forward under the Vision 2030. Following the Ambassador's speech, the guests enjoyed a spectacular display of fireworks crackling across the horizon.

The National Day comes at a time of significant progress and transformation in Saudi Arabia across all sectors. This advancement is attributed to the wise leadership of the Custodian of the Two Holy Mosques, King Salman bin Abdulaziz Al Saud, His Royal Highness Prince Mohammed bin Salman bin Abdulaziz Al Saud, Crown Prince and Prime Minister, and the ambitious Vision 2030, which aims to transform the Kingdom into a dynamic and thriving economy. Today, Saudi Arabia looks at the future with confidence, honoring its heritage while embracing innovation and seizing new opportunities.

It is worth mentioning that the relations between the Hellenic Republic and the Kingdom of Saudi Arabia are steadily developing at the highest level, evolving into a strategic partnership grounded in shared views and cooperation across private-sector projects in both countries.

At the Arab-Hellenic Chamber, we would like to take this opportunity to express to His Excellency Ambassador Ali Bin Yousef our sincere intention to further cooperate with his Embassy to strengthen relations between Saudi businessmen and their Greek counterparts across all business domains. We would also like to extend our warm wishes to the leadership and the people of the Kingdom of Saudi Arabia for many more decades of progress and prosperity.

غرفة التجارة العربية الايرلندية Arab-Irish Chamber of Commerce

Arab Irish Business Summit Highlights Expanding Opportunities for Irish Businesses as Exports to Arab States grow by 6%

More than 300 business leaders, policymakers and exporters gathered at the Mansion House on September 18, for the 2025 Arab Irish Business Summit, to explore and highlight the fast-growing opportunities for Irish businesses in the Arab world.

The summit comes as new figures from the Arab Irish Chamber of Commerce (AICC) show that Irish exports to Arab states reached €1.5 billion in the first half of 2025, an almost 6% increase on the same period last year. With trade expanding steadily across key markets such as Saudi Arabia, the UAE and Egypt, the region is fast becoming one of Ireland's most important trading partners, according to chamber CEO, Ahmad Younis.

Delegates were welcomed by Neale Richmond TD, Minister of State for International Development and Diaspora, who focused on the government's commitment to deepening economic ties with the Arab world.

The programme featured insights from a range of speakers, including Bobby Healy, Manna; Chanelle McCoy, Chanelle McCoy Health; Jim Healy, NuLumenTek; George Mullan, SIS Pitches and Anita Thomas of

Emirates, who shared their experiences, challenges and successes in building businesses in or trading with Arab markets. Case studies ranged from pioneering Irish SMEs to multinationals, offering practical lessons on how to establish long-term partnerships with Arab businesses and navigate cultural and regulatory dynamics. Arab speakers included Dr Khaled Hanafy, Secretary General of the Union of Arab Chambers and former Minister of Supply and Internal Trade in Egypt.

The opportunity ahead

Ahmad Younis, CEO of the AICC, said "What clearly emerged following today's summit is that the Arab world represents a viable, vibrant and expanding market for Irish businesses looking to scale up and grow. With more than 400 million consumers, booming economies and a huge reliance on imports across multiple sectors, the opportunity for Irish businesses has never been stronger. The companies that act now will be best placed to benefit."

BUSOGA INTERNATIONAL POLYTECHNIC

Busoga International Polytechnic (BIP), established in 2021, is a partnership between Sharjah Chamber of Commerce and Industry, UAE, and the Kingdom of Busoga. BIP was established to address the shortage of skilled labor in key sectors such as oil and gas, manufacturing, and construction.

The Institution is globally recognized, Pearson BTEC and OPITO-certified, that offers workshops, IT labs and mentorship to prepare the future workforce with the appropriate skills to enter the market. BIP is also a contribution to the Busoga Kingdom that helps its youth build a career of their own and transform theirs and the entire community's future.

On October 13th, 2025, the institution celebrated the 2025 batch of 158 Graduates who BIP was established to address the shortage of skilled labor in key sectors such as oil and gas, manufacturing, and construction. Our goal is to reduce unemployment and drive productivity by providing industry-relevant training.

The event was graced by several distinguished guests and partners, including the Chairman of the Board, Delegates from the UAE, a Guest of Honor from the Ministry of Education and proud parents and guardians.

Sharjah Chamber of Commerce and Industry is proud of its contribution to the Busoga Kingdom.

3rd Libyan European Transportation and Telecommunication Forum January 30-31, 2026

The Libyan–European Forum on Transport and Communications will hold its third annual edition on January 30–31, 2026, in Malta, under the auspices of the Ministry of Transport, the French Business (MEDEF), and the Union of European Transport Companies.

This year's forum will bring together a number of European and Libyan companies and institutions from the communications and information technology sectors, along with experts in transport and communications, to strengthen and expand partnerships between the Libyan and European sides.

The discussions will focus on the transport and communications sectors and the mechanisms for keeping pace with rapid global technological developments, as well as their positive impact on driving sustainable economic growth in Libya.

The forum will address the role and plans of the telecommunications sector in promoting integration with the transport sector, showcasing development and investment programs, exploring the implementation of modern global technologies, and drawing on the experiences of international and local experts.

Sessions will be moderated by specialists in transport and communications, with the forum aiming to support Libya's national strategies and projects, and to discuss solutions to challenges facing these sectors.

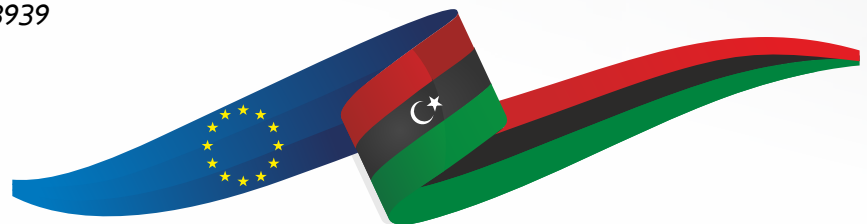

The event will also highlight the programs and strategies of the Holding Company in improving infrastructure, advancing the national digital vision, and developing transportation systems across related companies and institutions. It will emphasize expanding investment opportunities, particularly in technological innovation and smart transport services, in line with global trends in transport and communications.

Sipsa Filaha Afrika Food Export 18-21 May, 2026

SIPSA Filaha Agrofood will take place from 18-21 May, 2026, at the Palais des expositions SAFEX, in Algiers.

SIPSA-FILAHA is the largest trade fair dedicated to livestock and agricultural equipment in Africa and will present a comprehensive range of products and services to meet the needs of all sectors. the latest innovations and a set of Forums and conferences organized by the FILAHA Innove Foundation “Algerian Seniors Experts Organization “. This year's major areas of innovation include two agricultural emblems: the olive tree and the date palm. The olive tree will benefit from an entirely dedicated area - the Oleomed Pavilion. aimed at structuring the sector and promoting the exceptional quality of our olive growing, notably through the organization of a professional competition for the best olive oil, geared towards export. The date palm will be honored as part of the scientific initiative “The Palm Tree Initiative 2025”.which will explore the industrial applications of this emblematic species, with a view to promoting high-performance, sustainable Saharan agriculture.

The organizers especially recommend the participation of Greek olive oil producing companies in the Oleomed Pavilion. Although at the moment, political restrictions do not allow for export of olive oil to Algeria, still such participation could boost our country's image as an important olive oil producer and provide the opportunity to Greek participants to acquaint themselves and network with Algerian partners.

Courtesy Visit by Mr Alexandros Paterakis

On October 22, our Secretary General, Mr Rashad Mabger, welcomed at his office the newly elected member of our Board of Directors, Mr Alexandros Paterakis, Deputy CEO Digital & Advanced Services, PPC Group. Mr. Paterakis had the chance to meet its personnel and had an extended discussion with the Secretary General pertaining to PPC's involvement in the 14th Arab-Hellenic Economic Forum, and made plans for the PPC Group's future cooperation with our Chamber, elaborating on PPC's vision and ambitious future cable projects with Saudi Arabia and other Arab countries.

Alexandros Paterakis is the Deputy CEO, Executive Board Member, and Head of Digital & Advanced Services at PPC Group, Greece, where he leads the company's digital and advanced services strategy, positioning PPC at the forefront of the energy-to-tech transition.

He is a C-level executive with extensive international experience in telecommunications, ICT, and digital transformation. Throughout his career, Mr. Paterakis has spearheaded large-scale transformation programs across Europe, the Middle East, and Asia. He has held senior leadership roles at major telecom operators, including Vodafone and Mobily (Etihad Etisalat), where he also served as Chairman of Infotech Mobily India. In these

positions, he led ICT modernization at scale, oversaw international technology operations and advanced customer-centric digital strategies.

Prior to joining PPC, he was Chief Information Officer at Axiata Celcom in Malaysia, one of Southeast Asia's largest telecommunications providers, where he guided the company's innovation agenda and digital growth.

Mr. Paterakis holds degrees in Computer Engineering and Mathematics from the University of La Verne.

We, at the Arab-Hellenic Chamber, are deeply grateful to the PPC Group for their contribution and support to our work and mission and we are now most excited for the new chapter that is beginning with the election of Mr Paterakis on our Board.

Honoring a long-standing friend and supporter of our Chamber

Friday, September 26th, will be a day Ms Afroditi Ntoumani will remember for a long time. In a celebratory and emotional atmosphere, Ms Ntoumani waved goodbye to her colleagues and friends at the Helleniq Energy, as time came for a new phase in her life.

The Arab-Hellenic Chamber has a long history with Helleniq Energy and Ms Ntoumani, and was represented at this gathering with two staff-members, Maria A. Vestarkis, Head of Public Relations and Events Section, and Maria Kalyva, Administrative Secretary, Members & Board Affairs. The two ladies offered a bouquet to Ms Ntoumani to mark the occasion and thanked her for her impeccable professionalism all these years and the excellent cooperation.

We would like to seize this opportunity to wish Ms Ntoumani all the best in her next chapter and new endeavours.

1969

Father to Son

We started our journey in 1969 under Hamid Est, our trade was simple. We started working gradually, but our goals were big, day after day, with hard work & a great following. Our company grew up to the most important shipping agent & customs clearance in Syria, specializing in booking and loading raw materials used in industry, construction, large machinery, spare parts and car parts and many other things. We have been working on exporting the most important local products, which were the symbol of pride of our industry to connect to many countries of the Mediterranean and the world.

2012

Start Ship Freight

We developed our company to cover Air Freight, Packaging & Storage Warehousing, Loading Stuffing & tracking for all kinds of Exports & Import goods, FCL/FCL, LCL/FCL, LCL/LCL Handling all kinds of container types, General / Flat/ Open Top/ Reefers, A very good, relationship with clients & carriers.

2022

Easy Sea Way

In May 2022, we build cooperation between Easy Sea Way & Hamid Est, Depending on Great Experience in Shipping and Customs clearance by Firas Naamani & Dib Hamid, under Easy Sea Way for Maritime Transportation L.L.C, Our goals stayed the same & we developed our way to be luminous name in shipping and clearance, 100% trust, 100% responsibility, 100% following, Our slogan WE BOOK ,WE CARE In word and deed.

EASY SEA WAY
WE BOOK WE CARE

Who are we?

We developed our company to cover Sea Freight, Packaging & Storage Warehousing, Loading Stuffing & tracking for all kinds of Exports & Import goods, FCL/FCL, LCL/FCL, LCL/LCL Handling all kinds of container types, General / Flat/ Open Top/ Reefers, A very good, relationship with clients & carriers.

Our Goals :

Building a strong company and solid partnership with our clients to be the best in the field of shipping agency services

Field Of Work:

- Sea Freight.
- Air Freight.
- Land Freight.

Our Vision:

After more than twenty years of success in the Shipping and Clearance World, we built strong relationships with trusted agents in the whole world, our services covered all kinds of cargo, ports and terms.

Our Motto:

We Book
We Care

FARMA FRIENDS – SINGIRIDOU EIRINI SINGLE MEMBER PC

With our experience of 25 years and the continuing development in Bird Food production, we become the largest producer in Balkans.

The production facilities set up to supply high quality seed mixtures for Birds located in Kalochori – Thessaloniki – Greece. After the investment of 2022 the production facilities reach the 10.000 sqm and the company follows all procedures according to EU regulations.

The quality of the seeds used in our products is certainly the key to the company success. Raw materials are carefully selected and imported from countries all over the world.

Thanks to a technical collaboration with Veterinaries and Breeders, we offer the Best Bird Nutrition and we export in 50 Countries. Mixtures for different types of Pigeons, Canaries, Budgies, Parakeets, Parrots, Wild birds, Rodents etc., are in our range. Also, we produce in several clients with Private Label products.

In addition to Bird food production, you will find a standard range of Dog and Cat dry food that produced in Greece and a quality range of plastic Bird Accessories.

Raffi Palamoudian
Managing Director

PHARMAPAL is a distributor of specialized pharmaceuticals and medical products, serving the healthcare needs of the Middle East and North Africa.

The product range includes advanced surgical products used in heart and organ transplant surgery as well as anti-cancers. With over 30 years of experience since its founding in 1993, PHARMAPAL is uniquely positioned to meet the needs of both public and private healthcare institutions. The company's Athens office provides marketing and support services tailored to the needs of the markets we serve.

Raffi Palamoudian has served as Managing Director of PHARMAPAL since 1997. His prior experience of some 10 years in the pharmaceuticals industry was with Sandoz and Ciba-Geigy (now Novartis) where he held several managerial positions including Controller International Operations and Area Manager for the Middle East. Raffi holds a BSc and Msc in Engineering from UCL and Imperial College, London and an MBA from INSEAD, Fontainebleau.

Seasonal Openings

JUJU BAR RESTAURANT

The Juju Bar Restaurant, the iconic art deco bar-restaurant at the Divani Caravel, opens its doors for the winter season with a completely renewed menu and new signature cocktails inspired by the 100th anniversary of the Art Deco aesthetic. Drawing inspiration from Federico Fellini's 8 ½, Juju is far more than a dining venue — it is an immersive stage of experiences. Its lighting, textures, striking central screen, and distinctive décor create a cinematic atmosphere where imagination and reality blend, making every visit truly unforgettable. During the festive period, guests will also enjoy special Christmas and New Year's Eve menus and themed events that promise exceptional culinary and musical moments.

A+D

At the Athenian Riviera, A+D Bar of the Divani Apollon Palace & Thalasso, offers a different kind of allure—an elegant yet relaxed lounge where modern design meets effortless sophistication. Guests can unwind with refined cocktails, curated whiskey blends, and an inventive “street food” menu, alongside a fresh sushi selection that adds a vibrant culinary note. With its ambient setting and evening rhythm, A+D becomes the perfect spot for unwinding, socializing, or easing into the night.

A Landmark Project in Qatar by D. Drakoulakis S.A.

D. Drakoulakis S.A. – Shop Fittings, one of Greece's leading manufacturers of professional foodservice equipment and fixed furniture, proudly delivered a landmark project in Qatar: the complete interior design, manufacturing, and installation of the new Al Charafa Automatic Bakery.

Spanning a total of 1,500 sq.m., this flagship bakery represents a major milestone for one of Qatar's most historic brands. The entire interior design package of the 1,000sq.m sales area — including space planning, detailed construction drawings, materials & finishes selection, and 3D mock-ups. In parallel, it managed the technical design, in-house production of all fixed furniture and foodservice equipment, and complete on-site installation by its specialized team in Qatar.

The full process — from concept and planning to production and delivery — was completed in approximately 12 months, showcasing a fully integrated, turnkey approach.

This complex and culturally sensitive project highlights D. Drakoulakis S.A.'s ability to deliver custom solutions that align with both international standards and local design sensibilities.

With a growing presence across the Gulf region, the company continues to establish itself as a trusted partner for bespoke hospitality and foodservice projects throughout the Arab world.

Family Office Services in Greece & Cyprus: A Bridge Between the Arab World and Europe

As global wealth becomes increasingly mobile, families from the Middle East are looking toward Europe not only for investment opportunities but also for stability, legacy, and lifestyle. Greece and Cyprus have emerged as two of the most attractive destinations for establishing family offices, hubs that combine financial management, succession planning, and cross-border compliance under one trusted structure.

Both jurisdictions offer EU membership, strategic geographic proximity to the Middle-East, and a regulatory environment that supports asset protection and international mobility. Cyprus, with its well-established non-dom regime and flexible tax framework, remains a preferred jurisdiction for high-net-worth individuals and families seeking efficient wealth and estate planning. Greece, meanwhile, started drawing attention through its family-friendly residency programs and recent reforms that facilitate tax residency transfer and international asset management.

At Eurofast, we assist families from across the MENA region in structuring and managing their assets through tailor-made family office solutions in Athens and Nicosia. Our integrated approach covers everything from governance design and tax coordination to residency planning and trust formation. With teams operating across 21 offices, we ensure that every family office is both compliant and adaptable to cross-border needs.

Both countries offer what many families value most: a secure environment, quality education, healthcare, and access to the European market. In this context, Greece and Cyprus have become Mediterranean gateways, and Eurofast stands ready to guide that transition.

Eurofast operates in more than 21 offices across Europe, the Middle East, and the Balkans, providing professional advisory services.

EGNA LAW NAVRIDIS' 42nd anniversary

EGNA LAW NAVRIDIS law firm, headquartered in Athens, 21 Voukourestiou Street, proudly marks this year its 42nd anniversary of continuous and successful presence in the field of legal science and the provision of high-quality legal services.

The year 2012 was a milestone for our firm, as since then started our expansion across the Balkans, with the establishment of offices in Bucharest, Tirana, and Sofia. In 2017, we extended our presence to Skopje, followed more recently by Belgrade, and we are now pleased to announce our new office in Thessaloniki. Both in Skopje and Tirana, our offices are staffed with Greek-speaking professionals, ensuring direct and effective communication with our clients.

The expansion of EGNA LAW NAVRIDIS in the Balkans, also led to the development of a network of trusted partners in countries where we do not maintain our own offices, such as Cyprus, Istanbul, Dubai, and Erbil, enabling us to offer comprehensive legal support for any international business opportunity.

Furhter, our firm is actively engaged in the field of Investment Immigration Law (Golden Visa), responsibly managing all procedures for the issuance of residence permits to third-country investors acquiring property in Greece. Through close collaboration with experienced professionals, we provide integrated legal, notarial, and tax advisory services, ensuring a fast and accurate completion of the process for clients from Turkey, Iran, Iraq, Egypt, the United Arab Emirates, and other non-EU countries.

A common feature across all our offices is the presence of highly qualified and experienced associates, making EGNA LAW NAVRIDIS a firm distinguished for delivering premium legal services, with a focus on quality, and efficiency.

Our clientele includes some of the largest Greek and international companies operating in the fields of commerce, manufacturing, insurance, construction, and energy, whose long-standing trust and collaboration stand as a testament to the exceptional quality of our legal services.

STIRIXIS Group: Experiential Design Driving Growth

In today's interconnected markets, design has evolved beyond aesthetics to become a strategic force that shapes experiences, accelerates growth, and creates long-term value. Workplaces, schools, hospitality venues, and entertainment destinations are no longer just functional, they are ecosystems that inspire people, strengthen brands, and unlock opportunity.

At the forefront of this transformation is STIRIXIS Group, the award-winning international consulting and design firm with more than 30 years of expertise. By integrating business strategy, brand identity, and architecture, STIRIXIS Group delivers holistic solutions that enhance brand equity, nurture communities, and maximize profitability. With projects spanning Europe, the Middle East, and Africa, the firm demonstrates how thoughtful design can be a driver of growth and resilience.

Through its forward-looking methodology, STIRIXIS Group helps organizations anticipate change and design for the future. Guided by the philosophy of True Prosperity™, every project balance business performance with human well-being and long-term impact, creating value that truly lasts.

By bridging Greek creativity with the Arab world's visionary ambition, STIRIXIS Group shapes environments and strategies that embody progress, resilience, and shared prosperity.

*Excellence in
Partnerships*

على مدى أكثر من ٣٠ عامًا، حققت إعمار للاستشارات الهندسية إنجازات بارزة في مجالات الاستشارات الهندسية والتخطيط والتنمية العمرانية مع تبني مبادئ الاستدامة من خلال تقديم حلول متكاملة تحقق التوازن بين النمو الاقتصادي والحفاظ على البيئة. وباعتمادها نهجًا شاملاً، تسعى إعمار إلى رفع كفاءة الموارد وتقليل استهلاك الطاقة والمياه والحد من الانبعاثات الكربونية، بما ينسجم مع أهداف التنمية المستدامة ورؤية السعودية ٢٠٣٠.

ومن أبرز إنجازاتها في هذا المجال تبني معايير البناء الأخضر وتطبيق مبادئ الاقتصاد الدائري عبر إعادة استخدام الموارد وتقليل النفايات في المشاريع، إلى جانب قيادتها للتحالف العلمي والفني لمبادرة السعودية لزراعة ١٠ مليارات شجرة، أحد أكبر مشاريع التحول البيئي في المملكة العربية السعودية.

وفي إطار توسعها في مجالات البيئة والمناخ

أطلقت إعمار شركة حلول المناخ لتكون ذراعها المتخصص في مواجهة تحديات التغير المناخي ودعم التحول نحو اقتصاد منخفض الكربون. وتركز هذه الشركة على الدراسات البيئية، الاقتصاد الأخضر، قياس البصمة الكربونية، تسجيل شهادات الكربون، واستخدام التقنيات الحديثة مثل الذكاء الاصطناعي، والبيانات الجيومكانية، والاستشعار عن بُعد لتحليل الأداء البيئي ووضع استراتيجيات استدامة فعالة.

من أجل
احتضان الأرض
نحو مستقبل
أكثر خضرة

وخلال العام الحالي، انخرطت إعمار وحلول المناخ في تنفيذ عدد من المشاريع النوعية، من أبرزها:

- مشروع الإشراف على الضواحي الخضراء بالتعاون مع وزارة الشؤون البلدية والقروية والإسكان لتعزيز استدامة الغطاء النباتي في النطاق الحضري.
- مشروع تطوير مسار الهجرة النبوية التاريخية السياحي بين مكة المكرمة والمدينة المنورة بطول ٤٧٠ كلم شاملاً مقرات المبيت ومراكز الفعاليات ومرافق النقل والخدمات والبنية التحتية.
- مشروع خدمات الاستشارية لمبادرة الإدارة والتنمية المستدامة للغابات لدعم استزراع ١٠ ملايين شجرة وتطوير سياسات إدارة الغابات وخرائط المراقبة البيئية.
- مشروع تقديم خدمات استشارية للشركة السعودية للقهوة، إحدى شركات صندوق الاستثمارات العامة (PIF) والذي يهدف إلى إصدار شهادات الكربون لمليون شجرة قهوة بحلول عام ٢٠٢٦.

من خلال هذه المبادرات، تؤكد إعمار للاستشارات الهندسية وحلول المناخ التزامها بدعم الأهداف التنموية الوطنية وتعزيز مكانة المملكة كمركز رائد في الاستدامة والتحول نحو الاقتصاد الأخضر.

تُقيم الغرفة العربية اليونانية فعاليتها الرئيسية "المنتدى الاقتصادي العربي-اليوناني الرابع عشر" في فندق ذيفاني كارافيل، أثينا، اليونان، يومي 27 و 28 نوفمبر/تشرين الثاني 2025.

محوري المنتدى:

نتناول في هذا المنتدى قطاعي الإنشاءات والطاقة وما يتصل بهما من مجالات عمل كثيرة. إن اختيار هذين القطاعين تكمن أهميتهما في البعد الاستراتيجي والاقتصادي، ويعدان أساساً في تعزيز التعاون والشراكة بين اليونان والعالم العربي. نركز في هذا المنتدى على المزايا التي يملكها الجانبان في القرب الجغرافي والموقع الاستراتيجي، وعلى الفرص الواعدة في التعاون والشراكة. إن خبرة اليونان في المشاريع الإنشائية والبنية التحتية في العالم العربي، والتطور الذي وصلت إليه في مجال الطاقة ومواد البناء، تضيف إلى إمكانية توسيع التعاون مع العالم العربي، استناداً إلى مواردنا والرؤى الطموحة التي يمكن أن تدفع عجلة الابتكار والنمو بين الجانبين.

يتضمن برنامج المنتدى جلسات رئيسية تتناول محوري المنتدى، التطورات، وفرص الاستثمار والشراكة، إضافة إلى طاولات حوار مستديرة يقدمها كبار الرسميين والتنفيذيين في مجالات الإنشاءات والطاقة.

سيكون التقديم في هذا المنتدى باللغتين العربية واليونانية مع الترجمة الفورية، ويُمكن استخدام اللغة الإنجليزية لمن يرغب في الجلسات وحلقات النقاش.

رشاد مبجر
الأمين العام

البناء كالمعرفة لا يتوقفان

ضمن الكثير من المهن الشريفة العمل في البناء، وحرث الأرض، والبناء كالمعرفة لا يتوقف العمل به. للسنة الثانية على التوالي، نتناول قطاعي الانشاءات والطاقة في فعاليتنا الرئيسية "المنتدى الاقتصادي العربي اليوناني الرابع عشر" هذان القطاعان وما يتصل بهما من خدمات ومجالات عمل صناعية كثيرة يحظيان بأهمية استراتيجية كبيرة على مستوى كثير من الدول، ويلعبان دوراً رئيسياً في دفع عجلة النمو الاقتصادي ورفع المستوى المعيشي.

تمر بعض الدول العربية بمرحلة انتقالية نحو الاستقرار وإعادة الاعمار نتيجة الحروب والدمار التي حلّ بها منذ ما يسمى بالربيع العربي، والأمل في نجاح هذه الدول في توجيهها يبقى قائماً، خاصة وأنها تلقى دعماً من دول الخليج العربي في تمويل مشاريع الإعمار فيها. وهناك مصلحة خاصة بل ملحة من دول الاتحاد الأوروبي وأمريكا والمؤسسات المالية الدولية في دعم هذه الجهود وتمويلها، فدعم هذه الجهود يحد من مشاكل الهجرة التي تشكو منها أوروبا ليلاً ونهاراً، ويخلق لها في ظل الاستقرار شريك فعال في التبادل التجاري والاستثماري، أما العائد لنا كعرب يكمن في تعزيز مكانتنا الإقليمية والدولية، ويضيف - والوقت قد حان - إلى استغلال مواردنا والتركيز على أولوية التبادل التجاري والاستثماري فيما بيننا، ويسهل في أجواء الاستقرار والأمان من سهولة التنقل بين الدول العربية.

كما هو الأمر ملحّ في إعادة الإعمار، تظل قضية مواجهة التغير المناخي هي الأخرى تتطلب جهوداً والتزاماً واضحين، خاصة من الدول الصناعية في أوروبا وآسيا وأمريكا، ذلك أنها هي وبدرجة أساسية المسؤولة عن تدهور البيئة. بالرغم من جهود مؤتمرات الأطراف "COP"، يظل الالتزام بقرارات هذه المؤتمرات دون المستوى المطلوب، وما زال هاجس ارتفاع درجات الحرارة والكوارث الطبيعية تتواتر زيادتهما مع ندرة المياه والتصحر الذي وصل الى بعض الدول الأوروبية.

يشارك في أعمال ومداولات هذا المنتدى أكثر من 190 من رجال الأعمال العرب من 17 دولة عربية، ومن الجانب اليوناني أكثر من 120 من رجال الأعمال ممثلو أكثر من 70 من كبرى الشركات اليونانية في قطاع الانشاءات والطاقة، نتطلع، كما هي العادة في كل فعاليتنا، إلى تداول إيجابي وحيوي ولقاءات عمل مثمرة بين المشاركين.

نختتم هذا السرد المختصر بالتأكيد على التزامنا في الغرفة العربية اليونانية على العمل في فتح قنوات التواصل، ودعم الشركات الصغيرة والمتوسطة في العالم العربي واليونان على بناء علاقات عمل ناجحة تسهم في توسيع أنشطتها التجارية والاستثمارية.

ختاماً، نهني الجميع بأعياد الميلاد ورأس السنة.

الغرفة العربية اليونانية للتجارة والتنمية

ΑΡΑΒΟ-ΕΛΛΗΝΙΚΟ ΕΠΙΜΕΛΗΤΗΡΙΟ ΕΜΠΟΡΙΟΥ & ΑΝΑΠΤΥΞΕΩΣ
ARAB-HELLENIC CHAMBER OF COMMERCE & DEVELOPMENT

أهلاً بكم في عضوية الغرفة العربية اليونانية

أربعون عاماً انقضت منذ تأسيس الغرفة العربية اليونانية استطاعت خلالها أن تبرز كواحدة من أكثر الغرف الأجنبية المشتركة في اليونان حضوراً ونشاطاً، وأن تجذب إلى عضويتها كبار الشركات العاملة في اليونان والمئات من الشركات المتوسطة والصغيرة، وأن تسهم بدورها في زيادة التبادل التجاري والتدفقات الإستثمارية بين اليونان والعالم العربي وتعزيز التعاون العربي اليوناني في كافة المجالات.

تتميز فعاليات الغرفة العربية اليونانية بحضور مكثف ومشاركة فعالة من قبل رجال الأعمال في اليونان ونظرائهم من جميع الدول العربية، يعود هذا إلى ما تتناوله هذه الفعاليات من محاور وقطاعات للتداول والنقاش وبما تقوم به الغرفة العربية اليونانية من تنظيم في عقد اللقاءات الثنائية في كافة قطاعات العمل كجزء أساسي من هذه الفعاليات، كل ذلك أسهم في استمرارية الغرفة وتأكيدها مكانتها في أوساط الغرف التجارية العاملة في اليونان.

يضاف إلى تميز الغرفة العربية اليونانية تواصلها المستمر مع الشركات الأعضاء وغير الأعضاء واتباع سياسة الباب المفتوح، مما وفر لها قاعدة بيانات وشبكة اتصالات واسعة تستفيد منها بالدرجة الأولى الشركات الأعضاء في الغرفة.

امتيازات العضوية:

- المشاركة في فعاليات الغرفة من منتديات ومؤتمرات
- الترويج المجاني للشركات الأعضاء في مطبوعات الغرفة الدورية
- المشاركة في بعض لقاءات العمل الخاصة
- المشاركة في ورش العمل واللقاءات الثنائية التي تنظمها الغرفة
- لقاءات العمل عبر الإنترنت
- تزويد الشركات الأعضاء بالمعلومات المطلوبة من اليونان

المجالات المشتركة للتعاون العربي اليوناني:

تعد اليونان أقرب الدول الأوروبية مسافة إلى العالم العربي، ولذلك كان التواصل قائماً منذ القدم ونطاق التعاون سهلاً في كثير من المجالات، وفي ظل الظروف الراهنة فإن التجارة مع اليونان لها مزاياها العديدة، فهي قد استطاعت أن تؤسس لنفسها سمعة تجاوزت حدودها في كثير من مجالات العمل، والقطاعات التي تميز اليونان بجودتها منها على سبيل الذكر ما أحرزته من تطور ملموس في الصناعات الغذائية ومواد البناء والطاقة المستدامة بأنواعها والتكنولوجيا، بالإضافة إلى سجل متميز لشركات الهندسة والإنشاءات اليونانية في انجاز العديد من المشاريع في العالم العربي، يضاف إلى ذلك التفوق التقليدي لليونان وريادتها في قطاعي الملاحة وصناعة الموانئ،

ولذلك استطاعت اليونان بجودة ما تنتجه أن تتنافس في كثير من الأسواق العالمية، يدل ذلك الزيادة المستمرة في ميزان صادراتها إلى الكثير من دول العالم . إن فرص الاستثمار رحبة وفي أكثر من مجال، ويتفرد القطاع السياحي ببنية تحتية متكاملة تؤهله لأن يكون أكثر القطاعات الجاذبة للإستثمارات الخارجية، واليونان كما نعلم من أكثر الوجهات السياحية في العالم، وتجذب الملايين من السواح بمختلف اهتماماتهم، منها التعرف على حضارتها العريقة ومنها التمتع بما تمتاز به من جمال الطبيعة في قراها وجزرها ومدنها.

إن الخدمات التي نقدمها للشركات الأعضاء والتواصل المستمر معهم هو ما يميزنا ويضيف إلى قدرتنا في احداث الفرق المطلوب كعامل إيجابي في تعزيز التواصل بين القطاع الخاص في اليونان ونظيره في العالم العربي.
