The Arab-Hellenic Chamber is convening the **"15th Arab-Hellenic Economic Forum**" on November 25-26, 2026, in Athens. This year's edition focuses on the energy, construction, and related sectors, under the theme **"Overcoming Challenges, Forging our Way Ahead"**.

Scope: Energy and Construction, along with other related fields of work.

Concept: The conventional and renewable energy sectors stand as fundamental economic and strategic pillars for national security and key sources of income for States, while the construction and modern infrastructure sectors serve as an indicator of a nation's development and economic growth. Amid climate and environmental deterioration and shifting geopolitical dynamics, there is a growing need for dialogue, consultation, and the exploration of the opportunities abundant in Greece's and the Arab world's resources in these two fields, in order to strengthen cooperation, partnership, and investment, and to enhance our competitiveness in addressing climate and economic challenges. These themes will be discussed over the two-day programme, alongside the "**4th Greece–GCC Countries Business Gathering**," which adds a further positive dimension to the Forum's deliberations.

Industries and Sectors covered: Conventional energy and its projects; renewable energy and related projects; storage and distribution; artificial intelligence and its applications in energy projects;

construction, infrastructure, and joint projects; modern buildings and ecosystems; building materials industries and recycling; and the role of artificial intelligence in construction.

Format (in-person): Panel discussions, fireside chats, workshops and roundtables provide the floor to Arabs and Greeks to discuss challenges and opportunities in their sectors of interest. Intensive networking and impromptu B2B meetings will take place throughout the two days.

Who should attend: Senior officials, CEOs, business leaders, and professionals engaged in energy and construction affairs, as well as related fields of work.

Working Languages: Arabic, Greek, and English (simultaneous interpretation).

DRAFT AGENDA

Wednesday, November 25th, 2026

09:00 Registration & Networking
10:00 Welcoming Addresses
10:45 **High-Level Dialogue | Current challenges and prospects for future cooperation in the energy sector**
